CITY OF UNALASKA

43 Raven Way • P. O. Box 610 Unalaska, AK 99685 (907) 581-1251

July 1, 2025

Mayor Vincent M. Tutiakoff, Sr. Unalaska City Council Members Residents of the City of Unalaska

Re: Fiscal Year 2026 Budget

Dear Mayor Tutiakoff, City Council Members and Residents of Unalaska:

My staff and I are pleased to present the City of Unalaska's Budget for Fiscal Year 2026 (FY26), which commences on July 1, 2025.

This budget message includes an overview of the philosophy with which we approached the development of the budget. It reflects and supports Council's FY26 Budget Goals and contains a summary of anticipated influences and impacts on the City's operations and planning in the near and long-term future.

The budget reflects our efforts to maintain current services while identifying cost savings where possible. It responds to the Council's direction to attempt to keep non-personnel expenditure growth to less than five percent and demonstrates our efforts to meet financial obligations in the face of increasing personnel and insurance costs and reduced funding from the State. Due to continued pressure to reduce the federal deficit and the State of Alaska's fiscal challenges, fewer state and federal dollars will be available. Combined, this puts more pressure on local resources to maintain infrastructure, fund schools, support community services, and advance important capital projects.

The general fund adopted budget includes revenues and expenditures of \$38,706,750 and \$37,858,517 respectively, which represents a decrease of 0.50% and an increase of 3.75% from FY25 budgeted revenue and expenditures, respectively.

Operating revenues in all fund types, including the general fund, special revenue funds, and enterprise funds, are projected to be \$84,452,586, less inter-fund transfers, which is an increase of 2.07% from last year's total operating revenues. Operating expenses for all fund types, excluding transfers, are projected to be \$82,075,552, which is a decrease of 1.92% from last year's budgeted expenditures of \$83,678,348.

The FY26 capital project budget totals \$28,633,338, which is to be funded through various sources, and includes \$2,675,000 in grants and \$6,804,908 from the City's 1% Sales Tax Fund. A complete list and more detailed information on funding for each of these projects, as well as the Capital and

Major Maintenance Plan (CMMP) that was adopted on May 13, 2025, can be found behind the capital budget tab.

I. OVERVIEW

This document is designed to provide readers an overview of the City's FY26 financial picture that incorporates the factors that have influenced it, as well as the detail traditionally found in our budget. This budget message highlights selected changes in costs and levels of funding, identifies trends, and breaks out total revenues and expenditures in a single document.

II. GOALS

Budget goals are located in the front of the budget following the Table of Contents. The following information highlights the various sets of goals and objectives that have been developed by the City and explains the ways these activities have influenced planning, performance and budgeting.

Community Visions for the Future: Unalaska 2011-2020 & Comprehensive Plan

The FY26 operating and capital budgets contain funding that address the goals and many of the recommended actions from the Community Visions study and Comprehensive Plan. The following is a list of some of the actions identified in the study and supported by expenditures in the City's FY26 budget:

- 1. Support organizations that provide tourism development, health, arts, culture, education, the local women's shelter, drug and alcohol treatment and prevention, and the senior citizen nutrition program. The Council awarded ten grant applications to local non-profit organizations for FY26 totaling \$2,249,559. This represents a significant increase over prior years. A portion of the increase (\$420,759) came from tobacco excise tax revenue to the IFHS Clinic to cover its operating deficit.
- 2. Continue ongoing work and planning with state and federal agencies for various airport and passenger terminal improvements. The FY26 budget does not include any projects in the approved CMMP for the airport, however airport operating costs continue to put pressure on the airport's ability to operate at a breakeven point. The State of Alaska updated the Airport Master Plan for Unalaska, with particular attention to safety improvements for the runway, including the installation of a new Engineered Materials Arresting System (EMASS). We are awaiting a schedule for the implementation of the improvements.
- 3. Continue lobbying efforts to reduce airfares and improve air service to Unalaska. Air travel is the only way to reasonably access our island community. Direct, safe, reliable and affordable flights meeting regular and the peak seasonal demands of our community is critical. In an effort to improve air service, City officials continue to work with our lobbyists, air carriers, and both state and federal Departments of Transportation. In FY25, Ravn discontinued their air service between Anchorage and Unalaska, leaving Aleutian Airways as the sole provider of regular passenger air service to and from Anchorage.
- 4. **Maintenance of the City's water, sewer, and power utilities.** The City will continue to work to maintain our utilities and services. Master Plans have been developed for each utility. Related major maintenance and specific capital improvements are included in the CMMP. The power

utility continues to assess and pre-emptively address potential issues regarding the City's electrical grid. This includes maintenance to the electric distribution system, replenishing our supply of equipment including transformers, switching, and lines, and working with contractors to stabilize the electric grid throughout our community.

- 5. Develop an energy plan for Unalaska with the goal to improve the grid reliability. This endeavor includes working with Ounalashka Corporation to assess the viability for harnessing electricity from Makushin Volcano; improving the electrical distribution system by working with other island power producers to develop an electric cooperative; and installing other renewable energy sources to the grid, such as wind and solar to reduce the community's dependence on carbon fuels (diesel generators).
- 6. Continue to encourage an increased U.S. Coast Guard and state enforcement presence in Unalaska. We continue to ensure U.S. Coast Guard representatives have information on our community in an effort to convince them to make Unalaska an accompanied duty station. Alternatively, we encourage the U.S. Coast Guard to consider offsetting the rotation of the Marine Safety Detachment so that half the team rotates in the summer and half the team rotates in the winter. This would help to maintain a level of continuity and community relationships.
- 7. Support the work of the City's Historic Preservation Commission. The Historic Preservation Commission (HPC) continues to meet as needed. The HPC is working with the Bureau of Land Management to resolve ownership issues in the older area of our community that is experiencing disinvestment and aging structures, and how to fairly resolve nuisance issues presented from potentially dangerous buildings that have ownership problems arising from numerous family members inheriting property.
- 8. Continue positive and educational interactions with the Unalaska City School District. The Police and Fire Departments will continue to provide staff as needed for educational outreach and offer safety related classes. City staff also participates in the school's Career Fair each year, conducts tours of City Hall for students, and assists in lessons regarding the work of the City Council as requested. The City of Unalaska continues to fund the school district s at the full amount allowable under the law.
- 9. Continue the City Council's Graduating Senior Scholarship Award Program. Scholarships were again provided in FY26. Under the mayor and council section of the FY26 budget in the general fund, \$50,000 has been budgeted for the scholarship program.
- 10. Provide budget for annual Spring Clean-up Week through PCR. The annual spring clean-up is a successful program for the City of Unalaska and the community due to the hard work of PCR and the community members.
- 11. Continue to finance the removal of junk vehicles. City staff in the past worked with a contractor to remove vehicles and scrap metal from the landfill. That contractor is no longer in business locally. Trident Seafoods is in the process of building a new seafood processing facility at the end of Captains Bay, and has offered the City use of back-hauls on their supply barges in order to remove metal and junk vehicles from the landfill and from around the community. The City has applied for a federal grant to fund this program.
- 12. **Develop a maintenance plan for all public facilities, roads and parks.** Changing staff and management has impacted the continuity of work in this area and major roofing problems have

been discovered that need immediate attention. We've outsourced the inspection of all facility roofs and that work is now underway. We are also working to develop maintenance plans and schedules that will be incorporated into the operational budgets or CMMP depending on the project and cost.

- 13. Continue park development and other recreational opportunities for residents. PCR continues to develop recommendations for City Parks while also seeking grant funding to offset costs. The PCR developed a 10-year master plan with the assistance of consultant Berry Dunn. On March 11, 2025 the City Council passed Resolution 2025-16 and adopted the Comprehensive Park and Recreation Master Plan. plan will be incorporated to the City's Comprehensive Plan. The professional firm R&M Consultants is presently working with the Planning Department on this project, which is planned for completion in FY27.
- 14. Continue to recruit citizens willing to serve on City boards, committees, and commissions. The City posts vacancies on boards, committees, and commissions as they come open.

City Council Fiscal Goals for FY26

On February 25, 2025, as part of the budget process, through Resolution 2025-14, the City Council adopted fiscal goals for FY26. Listed below are the goals (*in italics*), each of which is followed by a brief summary of progress made and how that goal influenced development of the budget.

- Personnel. Any proposed increase to the total number of full-time equivalent (FTE) positions will be fully evaluated and justified during the budget approval work sessions. Goal met. The total number of FTE positions decreased to 176.25 with Council approval during the budget process. The City Manager has presented a plan to the City Council that will add a Director of Human Resources and a Deputy Director of Public Works. It's anticipated that those will be approved in FY26.
- General Fund Budgeted Surplus/Deficit. The General Fund operations will be budgeted without a deficit. The Council may appropriate additional funds from surplus to cover costs of capital projects. Goal met. The General Fund operating budget is budgeted to be fully met by General Fund operating revenues.
- 3. **Proprietary Funding.** Staff will continue to seek ways to balance budgets in the proprietary funds. **Goal addressed**. All departments evaluated their budgets and made adjustments, as appropriate. Proprietary funds continue to require appropriation of Net Assets to balance their budget, primarily related to capital projects and budgeted depreciation expense. A utility rate study was conducted in FY25 with the expectation that proposed rates would fully meet the needs of each utility over a -year period. City Council adopted the new rates as proposed by the consultant. City owned housing is used as an incentive for recruitment and retention, therefore, while we conservatively budget operations and renovations, a gap in funding will continue. In addition, Airport operating costs continue to increase at a greater rate than revenues. We will continue to seek out ways to balance these budgets.

4. Operating Expenses.

a. The overarching goal regarding the City Manager's proposed FY26 General Fund budget non-financial in nature. Specifically, the goal is to accumulate, evaluate and include costs that have been deferred in prior years. **Goal addressed.** Total non-personnel operating

expenditures in the General Fund increased by 2.70% from the original FY 2025 budget. This increase includes items related to the City building roof assessments as appropriate.

- b. The total amount available to fund the Community Support Program grants will continue to follow the formula of up to 3.5% of the five-year average revenue for the General Fund and up to all of the prior year-end fund balance for the Bed Tax and Tobacco Tax funds. Goal addressed. The funding amount available to be awarded this year was calculated at \$1,828,800. Funding increased for a one-time grant to the IFHS Clinic, which raised total Community Support Grants to \$2,249,559.
- c. City management shall continue to examine ways to reduce expenditures without significantly impacting the level and quality of services to the public. City management shall continue to examine ways to reduce inventory without significantly impacting the level and quality of services to the public. Goals addressed. All department directors evaluated their budgets and made cuts where possible. We will continue to seek ways to balance budgets, reduce expenditures, seek grant opportunities, and improve our operational efficiencies.
- 5. Capital Projects. New capital assets or maintenance of existing capital assets will be limited to projects approved by Council in the CMMP, which will include projects that are mandated or required by statute, projects that maintain our existing infrastructure, projects that address life, safety, or health issues, and projects that support the economic development of Unalaska. The replacement and maintenance plans for all existing capital assets will be reviewed annually.

The vehicle and heavy equipment fleet requirements will be reviewed annually and reduced where appropriate without significantly impacting services provided to the public. Staff will continue to seek ways to improve this process and our efficiencies.

Goals Addressed – The CMMP includes major maintenance, rolling stock, and capital projects. City Staff has worked together to prioritize items based on the criteria above. Staff will continue to seek out ways to improve this process and our efficiencies. The CMMP was approved by Resolution 2025-31 at the May 13, 2025 Council meeting.

6. Revenues.

- a. Proprietary Fund rate studies will be completed every three years and presented to Council. **Goal addressed.** A new rate study or all utilities was completed and results presented to Council in May 2025. New utility rates were adopted by Council by Ordinance 2025-06 on June 24, 2025.
- b. The millage rate will be reviewed annually to establish an appropriate millage rate to maintain infrastructure and operations. **Goal addressed.** The current millage rate of 10.5 mils was approved by Resolution 2025-22 at the May 13, 2025 Council Meeting.
- 7. **Debt Service.** The City will not incur new debt without appropriate analysis to show impacts to rates or taxpayers, and will not incur new debt unless the capital asset is eligible for a debt reimbursement program; is mandated by State or Federal government; or is needed to address life safety issues. The City may incur debt for its Proprietary Funds provided there is a documented plan to pay the debt through rate adjustments. **Goal addressed.** Proprietary Fund

debt was refunded in fiscal year 2025 in order to take advantage of a favorable rate environment. Staff does not anticipate any additional debt service to be incurred with this budget.

8. **Establish a Sustainability Fund:** In 2021 the City Council began discussions about establishing a sustainability fund. The fund would be capitalized with reserves the City presently has in other accounts and would be left to accrue earnings for an initial period of five years. The Council adopted Resolution 2025-45 establishing authorized investments, investment allocations and performance benchmarks for the city's sustainability fund for fiscal year 2026. It also adopted Ordinance 2025-08 to amend Unalaska's Code of Ordinances, Title 6 with the addition of a new chapter 6.06 to create the Sustainability Fund. The Council will be capitalizing the fund before the end of 2025 calendar year.

III. HIGHLIGHTS

The Process

The process and the final budget document emphasize the development of the budget based on City Council goals and priorities.

The budget cycle began in October with a review of FY25 CMMP and budget goal documents, developing an estimate of funds available for capital projects, and the presentation of the budget calendar to City Council. In February 2025, Council finalized revenue projections and adopted their budget goals for FY26. City departments completed their draft operating budgets in early February, and Council began the review of the FY26-34 CMMP.

The City Council set the FY26 property tax millage rate by Resolution 2025-22 on May 13, 2025; determined the level of school funding by Resolution 2025-23 on April 22, 2025; and approved the CMMP by Resolution 2025-31 on May 13, 2025.

The first reading of the FY26 Budget (Ordinance 2025-05) was on June 10, 2025, with public hearing, second reading and adoption by Council on June 24, 2025.

Future Improvements

We will continue to work on improving the budget document each year as we strive to achieve our goal of meeting current professional standards. In doing so, we will not only fine-tune the information provided, we will ease navigation through the document and facilitate greater understanding of the City's budget. We will continue to use planning documents and tools like annual council budget goals, long-term revenue forecasts to influence discussions and budget development.

Local, State, and Federal Revenues

- 1. **Local Revenues.** Revenues for FY25 are projected to be \$82,925,521.
- 2. **Long-Range Fiscal Plan.** Staff will continue working on fiscal sustainability which includes long-range plans to address revenue and expenditure concerns as we move forward with meeting community needs and goals.
- 3. **State Revenues and Funding.** The State provides funding to the City in the form of Payment

in Lieu of Taxes (FY26 budget \$900,000), a Corrections Contract (\$600,000), Community Assistance funding (\$120,000) and Shared Fisheries Business Tax (SFBT). The SFBT is received in the spring of each year and is budgeted as components of the Alaska Fisheries Business and Alaska Fisheries Resource Landing Taxes. During FY 2025, the City received \$248,660 for the SFBT.

- 4. Power Cost Equalization. The State's Power Cost Equalization program has been debated and in question over the past few years. The purpose of the PCE Endowment is to provide a long-term sustainable funding source for power costs, which provides affordable levels of electricity in otherwise high-cost service areas of the state. Unalaska's total FY26 PCE budget is \$946,000. The Alaska Municipal League advocates on behalf of municipalities to convince the legislature to continue these revenue sharing payments.
- 5. PERS and TRS. In setting the Defined Benefit Plan rates, the Alaska Retirement Management Board (ARMB) addressed compliance with Senate Bill 125, the PERS "cost-share" bill. In fiscal year 2008, the bill converted the PERS defined benefit plan to a cost-share plan, and provided for one integrated system of accounting for all employers. The bill established one uniform contribution rate of 22% for PERS employers, rather than separate contribution rates for each employer. The following table shows figures taken from the Alaska Department of Administration's Retirement and Benefits website:

PERS/TRS Defined Benefit Plan Contribution Rates (PERS Tiers I/II/III and TRS Tiers I/II)					
	PERS	TRS			
ARMB Adopted Rate	28.33%	31.33%			
Employer Effective Rate	22.00%	12.56%			

Personnel Costs

- 1. **Total Personnel Costs.** Total personnel costs for FY26 are projected at \$34,320,040, which represents an 6.5% increase from the FY25 total of \$32,232,392. Personnel costs include salaries and wages, payroll taxes, benefits, and other compensation. Detailed positions and costs for each department are shown in the personnel portion of this budget.
- 2. **Salaries and Wages.** The salaries and wages line item for FY26 includes base pay rates and the City's costs of providing paid leave and holidays. Salaries and wages for all departments and funds are \$20,654,386 which is a 7.5% increase from FY25.
- 3. Employee Payroll Taxes and Benefits.
 - a. Employee payroll taxes and benefits include City contributions to state and federal payroll taxes, PERS, health insurance premiums, Workers' Compensation insurance, and union benefits. The cost for employee benefits included in the budget is \$13,665,654, an increase of 5.0% from FY25. Employee benefits represent 39.8% of total personnel costs.
 - b. City contributions for employees to the state PERS are budgeted at \$5,100,087.
 - c. Workers' Compensation insurance rates are based on a combination of base rates set by the National Council on Compensation Insurance, the City's experience modifier, and

on total payroll. The City's experience modifier was unchanged, which equates to FY26 budgeted premium of \$319,395 based on a payroll estimated at \$20,654,386, which resulted in a \$57,775 decrease from FY25.

- d. The City budgeted \$351,500 for the Annual Travel Allowance for eligible employees in FY26.
- e. The City continues to provide quality insurance benefits for eligible employees and their immediate family. Our standard insurance benefits include group medical, dental, vision and audio coverage for employees and dependents at no charge to the employee. The City also provides a \$50,000 life insurance policy for employees at no cost to the employee. Additional optional insurance benefits are available at a cost to the employee.
- 4. **Budgeted Overtime.** Budgeted overtime for all departments for FY26 is \$1,149,774. We strive to keep overtime at a minimum; however, these costs are typically emergency and weather dependent.

Insurance Costs and Trends

Every January, the Administration Department prepares a budget for the City's expected liability, property, casualty, marine and workers' compensation insurance premiums. A budget is prepared using many factors, including estimated insurance market rates provided by the City's broker; estimated City revenues and payroll; the City's loss history; the City's workers' compensation experience modifier; the value of City-owned property; and vehicles and equipment to be added in the coming fiscal year.

The insurance market continues to be difficult for most lines of insurance, with expected increases across all lines. Reinsurance has been a primary driver of insurance costs with 58% of all insurance premiums due to reinsurance. Below is a comparison of expiring FY25 premiums and FY26 budget estimates:

COVERAGE	FY25 Expiring Premium	FY26 Budget Estimate	Percentage Increase
Property	\$638,207	\$743,826	16.55%
DIC (Earthquake & Flood)	\$556,555	\$612,211	10.00%
Liability	\$576,764	\$658,804	14.22%
Workers' Compensation	\$307,296	\$316,515	3.00%
Marine	\$131,245	\$165,796	26.33%

Property Premiums include property, earthquake & flood, mobile equipment and crime coverage. Property coverage is based on value of property, loss history and rates. The higher costs are due to an increase in property values and higher coverage rates.

Liability premiums encompass general liability, law enforcement liability, employment liability, cyber liability and auto liability. Liability coverages are influenced by changes in payroll, loss history and rates. Liability rates increased primarily due to increases in general liability and employment liability coverage costs.

Workers' Compensation rates may experience a substantial increase due to payroll increases which will be most likely tempered by the City's lower experience modifier due to decreased work-related injury claims.

Marine Coverage includes the rescue vessel and layers of marine liability. Marine insurance coverage is based on Port's revenue and loss history. The Port has an excellent loss history and the estimated 24% premium increase is due to an expected increase in rates.

The City receives premium discounts from its insurer for submitting proof of training, sprinkler inspection certificates, safety committee minutes, etc. This year the discount is expected to be approximately \$50,000.

In the fall of 2024, the two Alaska public entity insurance pools, the Alaska Municipal League Joint Insurance Association (AMLJIA) and APEI announced their merger, creating a new organization called Alaska Public Risk Alliance (APRA). Beginning with FY26 insurance renewals, the City will participate in the newly formed insurance pool.

The Capital and Major Maintenance Plan

Title VI of the Unalaska City Code requires the City Manager to submit a five-year capital improvement plan and budget of the proposed projects each year in conjunction with the City's operating budget. For the City, this document is called the Capital and Major Maintenance Plan (CMMP). Annually, the City Council approves the CMMP, helping to identify needs and set spending priorities for the period covered in the CMMP. The first year of each year's plan supports the proposed capital budget, and the following years indicate anticipated timing and costs for capital improvement projects, projected infrastructure and equipment maintenance or replacement needs. In 2020, the City extended the period covered by the CMMP from five years to ten years. With the extension to a 10-year financial forecast, the CMMP will also provide information on financial trends that may help identify any funding complications before they occur.

The City's capitalization threshold remains at \$50,000 for the General Fund and \$10,000 for the proprietary funds. Major maintenance projects that exceed the \$50,000 threshold are included in the CMMP. With personnel changes in Public Works and Facilities Maintenance, we are now beginning to devise a 5-year maintenance plan, focusing on maintaining the facilities we have as opposed to new construction. We hope to expand that to a 10-year plan in the future.

School Funding

The Unalaska City School District's FY26 budget request to the City was approved by council at their meeting on April 22, 2025. The district's request (\$6,243,965) includes the required general fund appropriation of \$4,398,965 at the maximum rate allowed, and \$1,845,000 in funding beyond the set funding cap.

Proprietary Funds Synopsis

According to the Governmental Financial Reporting Model, proprietary funds may be used to report any activity for which a fee is charged to external users for goods and services. A given activity must be accounted for in an enterprise fund if it meets any of the following criteria, in the context of its principal revenue source: debt issued backed solely by fees and charges; a legal requirement to recover the costs of services, including capital costs such as depreciation or debt service; or a

local government's policy that all costs are recovered through user fees and charges, including capital costs, such as depreciation or debt service.

It is important to note the goal for the proprietary or enterprise funds is to break even. If proprietary funds are required to be established as outlined above, it is the intent that user fees and related services charges would satisfactorily meet the associated costs to provide the service. One benefit of proprietary funds is that they demonstrate what portion of the Fund's costs are met through user fees, with any shortfall provided as a subsidy from the General Fund (which is funded by taxpayers).

Considering the above, the City's proprietary funds historically have not operated at a profit, rather utilizing Unrestricted Net Position, when possible, to absorb losses. Included in each year's Council-approved budget goals is a request to implement cost controls and generate operational efficiencies in order to improve the overall performance of the utility.

The City's utilities undergo a rate study every four or five years to establish consumer rates that are designed to meet the operational and capital costs of each utility. The Department of Public Utilities hired NewGen Strategies & Solutions to analyze operating and capital expenditures for all Utility Funds and to determine the revenue requirements to cover each utility's costs. The following summarizes the health of each proprietary fund.

- 1. **Electric Fund** Revenues are projected at \$19,523,229 which is an increase of \$1,517,250 over FY25 budget amount of \$18,005,979. Budgeted operating expenses are \$19,848,478, resulting in a budgeted operating deficit of \$325,249. Rates in this fund are directly linked to the cost of fuel and will fluctuate as fuel costs rise or fall.
- 2. **Water Fund** The fund has been traditionally stable over the years. FY25 revenues are projected at \$2,697,048, which is an increase of \$286,600 over last year's budget of \$2,410,448. Budgeted operating expenses are \$4,038,098, resulting in a budgeted operating deficit of \$1,341,050.
- 3. **Wastewater Fund** Revenues are projected at \$3,249,927, which is an increase of \$63,038 over last year's budget of \$3,186,889. Budgeted operating expenses are \$4,165,604, resulting in a budgeted operating deficit of \$915,677.
- 4. **Solid Waste Fund** Revenues are projected at \$3,928,188, which is an increase of \$407,600 over last year's budget of \$3,520,588. Budgeted operating expenses are \$4,109,109, resulting in a budgeted operating deficit of \$180,921. Rates have increased steadily through the years, but due to the requirements for closure, post-closure care and depreciation, it is expected that the Solid Waste Fund will continue to operate at a deficit.
- 5. **Ports & Harbors Fund** Operating revenues are projected at \$9,914,465 which is a decrease of \$158,465 from last year's budget of \$10,072,930. Budgeted operating expenses are \$9,871,903, resulting in a budgeted operating deficit of \$42,562.
- 6. **Airport Fund** Revenues are projected at \$474,508 which is a decrease from the prior year. Budgeted operating expenses are \$1,024,936, resulting in a budgeted operating deficit of \$550,428.
- 7. **Housing Fund** Revenues are projected at \$258,471 which is an increase over the prior. Budgeted operating expenses are \$642,954, resulting in a budgeted operating deficit of

\$384,483.

IV. SUMMARY

Long-term planning and progress reporting are key components of performance accountability in local government. The City of Unalaska's Comprehensive Plan is underway with the professional assistance of R&M Consultants from Anchorage. We will continue our work on master plans for the City's utilities that will identify and assess these infrastructure assets, prepare us for regulatory changes, develop replacement schedules, and map a path toward better management and improved financial performance.

The City of Unalaska is fortunate to have money in reserve for emergencies, and our community has truly benefited from commercial fisheries. Elected officials and policymakers reinvested these revenues in the community for the benefit of residents, fisherman, visitors, seasonal workers, and many others who visit. Assets the City acquired in the past must be maintained. Costs continue to rise, and both State and Federal funding sources are in flux. If the State Legislature fails to address the revenue shortfalls, we can expect further declines in State support. Changes in state and federal fisheries and wildlife management regulations have the potential to further strain our local economy. In addition, our economy, while diverse in that we process many species of fish, is still a single-source, resource-extraction-based economy. We need to develop ways to invest in the future for the time when fisheries and the related cyclical revenues take an inevitable downturn.

On July 1, 2025, the FY26 budget will turn public dollars into the public services that reflect the community's goals and meet the budget goals set by the City Council.

Finally, my staff and I would like to thank Mayor Tutiakoff, City Council Members, and community members for their advice and work in preparing the City of Unalaska's FY26 Operating and Capital Budgets.

Sincerely,

CITY OF UNALASKA

William Homka City Manager

ORDINANCE 2025-05

AN ORDINANCE OF THE UNALASKA CITY COUNCIL ADOPTING THE FISCAL YEAR 2026 OPERATING AND CAPITAL BUDGET FOR THE CITY OF UNALASKA

BE IT ENACTED BY THE UNALASKA CITY COUNCIL AS FOLLOWS:

Section 1. Classification: This is a non-code ordinance.

Section 2. Effective Date: This ordinance becomes effective July 1, 2025

Section 3. Content: The following sums of money as may be needed or deemed necessary to defray expenses and liabilities of the City of Unalaska are hereby appropriated for municipal purposes and objects of the City of Unalaska hereinafter specified for the fiscal year 2026, July 1, 2025 to June 30, 2026, for the operating section, and for the duration of the project for the capital section. Adoption of this ordinance recognizes that funds are appropriated at the department level or capital project level and as outlined below. The presentation shown (by function: general government, public safety, etc.) is the authorized legal level of control. Composition of these figures is explained in the full detail budget document attached.

I. OPERATING BUDGET

A. General Fund

	<u>Amount</u>	Percentage

BUDGET GOALS

RESOLUTION 2025-14

A RESOLUTION OF THE UNALASKA CITY COUNCIL APPROVING THE COUNCIL'S GOALS FOR THE FISCAL YEAR 2026 BUDGET

WHEREAS, budget guidelines help to ensure that the budget is prepared in a manner consistent with City Council desires; and

WHEREAS, the City Council has discussed and selected the attached set of budget goals for Fiscal Year 2026; and

WHEREAS, management will utilize the adopted goals as guidelines when developing the Fiscal Year 2026 budget.

NOW THEREFORE BE IT RESOLVED that the Unalaska City Council adopts the attached goals as a guideline for developing the Fiscal Year 2026 budget.

PASSED AND ADOPTED by a duly constituted quorum of the Unalaska City Council on February 25, 2025.

Vincent M. Tutiakoff, Sr.

Mayor

ATTEST:

Estkarlen P Magdaong, CMC

City Clerk

CITY COUNCIL FISCAL YEAR 2026 BUDGET GOALS

Personnel Goals

The FY 2025 budget included 176.50 full-time equivalent (FTE) positions. Any proposed increase to the total number of full-time equivalent (FTE) positions will be fully evaluated and justified during the budget approval work sessions.

The FY 2026 goal represents no change from the approved FY 2025 budget goal.

General Fund Surplus/Deficit

The General Fund operations will be budgeted without a deficit. The Council may appropriate additional funds from surplus to cover costs of capital projects.

The FY 2026 goal represents no change from the approved FY 2025 budget goal.

Proprietary Funding

Staff will continue to seek ways to balance budgets in the proprietary funds.

The FY 2026 goal represents no change from the approved FY 2025 budget goal.

Operating Expenses

The overarching goal regarding the City Manager's proposed FY 2026 General Fund budget is non-financial in nature. Specifically, the goal is to accumulate, evaluate and include costs that have been deferred in prior years.

City management shall continue to examine ways to reduce expenditures without significantly impacting the level and quality of services to the public.

City management shall continue to examine ways to reduce inventory without significantly impacting the level and quality of services to the public.

The total amount available to fund the Community Support Program grants is based on Resolution 2024-44 and states:

Three and one-half percent (3.5%) of the average General Fund revenue for the five most recently completed and audited fiscal years; plus the current fund balance of the Bed Tax Fund and the Tobacco Excise Tax Fund, less committed amounts.

The FY 2026 goal does not include a specific cap for non-payroll operating expenses, which represents a change from prior years where a 3% or 5% cap were approved budget goals.

Capital Projects

New capital assets or maintenance of existing capital assets will be limited to projects approved by Council in the CMMP, which will include projects that are mandated or required by statute, projects that maintain our existing infrastructure, projects that address life, safety, or health issues, and projects that support the economic development of Unalaska.

The replacement and maintenance plans for all existing capital assets will be reviewed annually.

The vehicle and heavy equipment fleet requirements will be reviewed annually and reduced where appropriate without significantly impacting services provided to the public.

The FY 2026 goal represents no change from the approved FY 2025 budget goal.

Revenues

Proprietary Fund rate studies will be completed every three years and presented to council.

The mil rate will be reviewed annually to establish an appropriate mil rate to maintain infrastructure and operations.

The FY 2026 goal represents no change from the approved FY 2025 budget goal.

Debt Service

The City will not incur new debt without appropriate analysis to show impacts to rates or taxpayers, and will not incur new debt unless the capital asset is eligible for a debt reimbursement program; is mandated by State or Federal government; or is needed to address life, safety or health issues.

The City may incur debt for its Proprietary Funds provided there is a documented plan to pay the debt through rate adjustments.

The FY 2026 goal represents no change from the approved FY 2025 budget goal.

MEMORANDUM TO COUNCIL

To: Mayor and City Council Members From: Jim Sharpe, Interim Finance Director

Through: Bil Homka, City Manager Date: February 25, 2025

Re: Resolution 2025-14: Approving the Council's Goals for the Fiscal Year 2026

Budget

SUMMARY: This memo provides information regarding recommended FY 2026 Budget Goals. The FY 2025 Budget Goals are attached, along with staff recommendations for FY 2026, and will be utilized to help direct the preparation of the budget once approved.

PREVIOUS COUNCIL ACTION: The City Council has reviewed budget goals at the beginning of each budget cycle since about 2002. Tonight's work session discussion will be followed by an action item for City Council to discuss and potentially adopt.

BACKGROUND: Much of what we do as a municipal government is legislatively or code driven. City staff will continue seek ways to perform our services to the community more efficiently, in an effort to reduce costs and increase our effectiveness.

<u>DISCUSSION</u>: Proposed Budget Goals for Fiscal Year 2026 are attached to the resolution and include narrative related to any changes from the prior fiscal year. Key points on various issues impacting the budget goals are provided below.

Personnel: Any proposed increase to the total number of full-time equivalent (FTE) positions will be fully evaluated and justified during the budget approval work sessions. In FY 2025, Council authorized a total of 176.50 FTE employees. Administration will have a more detailed discussion with the Council during the budget presentation regarding approval for any proposed new positions.

General Fund Surplus/Deficit: Staff will work to develop a budget in which the General Fund will operate without a deficit.

Proprietary Funds: Staff will continue to review operating expenditures to budget and operate at a break-even point. However, increased revenue is most likely the only way proprietary fund budgets will operate without a deficit in the near term.

City owned housing is used as an incentive for recruitment and retention, therefore, while we conservatively budget operations and renovations, a gap in funding will continue. In addition, the cost of operating the airport continues to increase faster than the revenue gains.

The City has engaged an outside firm to perform a rate study for the City's Public Utilities, which is expected to be completed prior to adoption of the FY 2026 budget. It is anticipated that the study will indicate that rate increases will be required for each utility to operate at a break-even level in FY 2026.

Operating Expenses: Directors will prepare their proposed budgets with the understanding that any non-personnel increases will have to be justified and evaluated to ensure that the level and quality of services to the public is maintained or improved. It has been determined that there is a need to fully understand the impact of deferring costs from prior years and Staff recommends allowing Directors to complete a full evaluation in order to ascertain the fiscal impact of those deferred costs.

The City Manager and Interim Finance Director will meet with each director individually and review proposed budget increases and decreases. This will allow Staff to develop a schedule to address the prior year deferrals.

Certain departments may request one-time increases in order to purchase items that do not qualify as a capital purchase but would otherwise not be purchased at their existing operating budget levels.

Capital Projects: The CMMP is currently being developed. A presentation of the initial draft projects was presented at the February 11, 2025 City Council meeting. The draft CMMP will be discussed again at a later City Council meeting.

Revenues: Projected FY 2026 General Fund revenues will be presented tonight. Council considers the property tax millage rate annually as part of the budget process. Projected revenues for the Proprietary Funds will be presented along with the draft budget later in the budgeting process.

Debt Service: In prior years, the City has incurred debt in their Proprietary Funds; each of which requires annual debt services. The City refunded a portion of this debt at the beginning of fiscal year 2021 through bond refinancing opportunities, achieving significant cost savings over the remaining term of the debt. The City has entered into an agreement with Foster Garvey to provide counsel related to refunding certain Electric proprietary fund debt, which is expected to provide interest savings of approximately \$650,000 spread over several years. Pricing related to this debt refunding has not yet been determined.

Additional City debt service is related to the Ports proprietary fund for the UMC, Positions 3 and 4. There are no anticipated changes to the Port debt service in FY 2026.

<u>ALTERNATIVES</u>: Various alternatives exist. As Staff completes the budget process, we will seek ways to perform our work more efficiently to reduce costs and increase our effectiveness.

<u>FINANCIAL IMPLICATIONS</u>: Financial implications will be brought forward during the budget presentations.

LEGAL: None.

STAFF RECOMMENDATION: Staff recommends approval of the proposed FY 2026 Budget Goals through adoption of Resolution 2025-14.

PROPOSED MOTION: I move to adopt Resolution 2025-14.

CITY MANAGER COMMENTS: I support the Staff Recommendation.

RESOLUTION 2025-36

A RESOLUTION OF THE UNALASKA CITY COUNCIL CERTIFYING THE 2025 REAL AND PERSONAL PROPERTY TAX ROLLS

WHEREAS, the City Assessor valued all real property within the City of Unalaska for property tax purposes and notices of assessed value were sent to the owners of record; and

WHEREAS, the Assessor settled all appeals of the 2025 real property tax assessments to the satisfaction of the property owners, with one exception; and

WHEREAS, one appeal was heard by the Board of Equalization and the assessment was found not to be in error; and

WHEREAS, Unalaska's Code of Ordinances at § 6.32.110 (C) provides that the City Council shall certify the tax roll to the Assessor by resolution.

NOW THEREFORE BE IT RESOLVED that the Unalaska City Council hereby accepts and certifies the property tax assessment rolls for calendar year 2025 as follows:

REAL PROPERTY

Total Assessed Value	\$978,545,200
Exempt	\$379,176,093
Taxable	\$599,369,107

CITY MANAGER

General Fund: *City Manager's Office* (0102-025X) Responsible Manager/Title: Bil Homka, City Manager

Mission Statement

To provide professional advice and guidance to the City Council, act as the City's representative regarding state and federal issues and manage City services in an efficient manner while ensuring the public is included and informed throughout the government process.

Departmental Goals

- Ensure processes to conduct city business are public, transparent, fair for all and improve processes to be more efficient and effective
- To foster open, constructive communication between the City and Stakeholders
- To ensure all State and Federal Regulations are met by facilities and operations with the support of departmental directors
- To serve as a resource for City Council Directives
- To promote economic development

CITY ADMINISTRATION

General Fund: <u>Administration</u> (0102-035X) Responsible Manager/Title: Marjorie Veeder, Deputy City Manager

Mission Statement

Our mission is to support the City of Unalaska, our employees, and future employees through ensuring a safe and equitable working environment, extending training and learning opportunities for professional growth, standardizing policies, and facilitating clear and consistent processes.

Departmental Goals

- To ensure that local code regulations and city-wide policies remain current and relevant, and achieve their objectives and desired outcomes.
- To ensure quality employee performance, encourage professional growth, and reduce performance-related liability through employee orientation, development, and training programs.
- To recruit and retain highly qualified employees.
- To ensure compensation, benefit plans, and recognition programs are equitable, competitive, and meaningful through research and analysis.
- To ensure City's hiring and employment process meets Code requirements as well as Equal Opportunity Employment and Affirmative Action Plans.
- To establish and enforce effective performance management tools.
- To provide risk management support to all departments, including maintain records for Workers Compensation, OSHA, and insurance policies.
- To coordinate the City's Safety Program with the support of the Safety Committee.
- To efficiently manage the City's employee housing program and maintain housing facilities.
- To manage the City's notary program and maintain current notary commissions.

FINANCE & INFORMATION SYSTEMS

General Fund: *Finance Department* (0102-065X; 075X) Responsible Manager/Title: Jim Sharpe, Interim Finance Director

Mission Statement

Finance: To provide sound and innovative financial management in the areas of financial record keeping, payroll, accounts payable, billing, accounts receivable, budgeting, and reporting with the desire to provide outstanding customer service and conduct ourselves according to the highest professional standards.

Information Systems: To promote excellence, quality, and efficiency by delivering and supporting enabling technology for network services and infrastructure, programs, and applications while protecting city-wide data.

Departmental Goals

Finance

- To provide accurate and timely financial information and support to City Staff, elected officials, citizens and other stakeholders.
- To safeguard the City's assets and maximize investment returns while minimizing risk and maintaining liquidity
- To process accounts payable, payroll, billing and accounts receivable, efficiently and accurately
- To maintain a high level of professional standards by complying with all applicable laws, regulations, recommended practices and by participating in continuing professional education
- To prepare the Annual Comprehensive Financial Report consistent with the criteria established by the Government Finance Officers Association of the United States and Canada (GFOA) for its Certificate of Achievement for Excellence in Financial Reporting Program
- To have no findings during the single audit of State and Federal awards and process grant reporting timely and accurately
- To systematically improve the City's financial system-MUNIS while maintaining superior internal controls.

Information Systems

- To provide quality, cost effective services through the innovative use of technology.
- To ensure reliable infrastructure thereby minimizing down-time for City network users.
- To maintain a high level of professionalism, knowledge, and skills through continuing training and investigation of new technology.
- To facilitate the usage of City hardware and software.

PUBLIC SAFETY

General Fund: *Police Department* (0102-115X; 125X; 145X) Responsible Manager/Title: Kim Hankins, Chief of Police

Mission Statement

In partnership with the community, we will provide the citizenry and visitors of Unalaska with professional public safety services. Our members will be accountable to and respectful of our diverse population. We will exercise leadership, encourage community involvement and promote education to make the City of Unalaska a safe place for families.

Departmental Goals

Police/Admin Division

- To ensure the delivery of quality police services fostered by our ongoing commitment to utilizing industry best practices through the review and revision of policies and procedures.
- To maintain a highly skilled staff through professional training and continuing education
- To promote community security through emergency preparedness, education, and public relations programs; and by providing services which resolve problems to protect persons and property

Corrections Division Goals

- To provide a clean and safe environment for all persons being held on criminal charges or in protective custody
- To ensure that staff members maintain a high level of professionalism and training
- To keep policies and procedures up to date for efficient operations and compliance with state and federal regulations

Communications Division Goals

- To support the timely delivery of emergency services by obtaining needed information from the public in a professional and compassionate manner
- To maintain a workplace fully staffed with qualified and capable employees
- To provide employees with the training and tools necessary to be successful

FIRE DEPARTMENT/EMERGENCY MANAGEMENT SERVICES

General Fund: Fire Department/EMS (0102-155X)

Responsible Manager/Title: Benjamin L. Knowles, Fire Chief/ Emergency Management Coordinator

Mission Statement

Our purpose is to provide the City of Unalaska's citizens and its visitors with a safe and vibrant community. We aim to enhance the city's livability by providing the highest level of fire and emergency medical services

Departmental Goals

- Recruit, retain, and develop a highly skilled fire and EMS team, optimizing staffing to meet national standards and enhancing advanced life support capabilities.
- Continuously improve operational readiness through consistent advanced training, realistic scenarios, and modern training facilities.
- Improve community emergency preparedness for natural disasters, cyber threats, and public health emergencies, while promoting comprehensive safety education.
- Achieve trust in fire and EMS service by adopting industry best practices and consistently delivering excellent customer service.
- Foster a resilient and informed Unalaska community by increasing health literacy and empowering residents with essential emergency response knowledge.

PUBLIC WORKS

General Fund: <u>Public Works Department</u> (0102-205X;225X; 235X; XXXX-285X; XXXX-295X) Responsible Manager/Title: Marc Kielmeyer, Acting Director of Public Works

Mission Statement

To responsibly develop and preserve the physical infrastructure which provides the foundation for our diverse community, while recognizing our remote character and responding to our unique challenges.

Departmental Goals

Administration

- To ensure capital projects are completed in a high-quality, cost effective, and timely manner.
- To provide outstanding services which enhance quality of life and contribute to the economic development of the City.
- To work cooperatively with other departments to ensure efficient use of City resources.
- To provide a safe, efficient work environment for all employees.

Streets and Roads

- To promote public safety and quality of life by ensuring local roadways are well-maintained, with appropriate signage, and in good repair.
- To enhance and protect the value of the City's infrastructure assets through a comprehensive maintenance program.
- To reduce annual operating expenditures through development and implementation of a longrange, comprehensive plan for construction and maintenance of City streets and roads.
- To comply with all regulatory requirements.

Receiving and Supply

- Optimize inventory levels to keep the combination of carrying costs, reorder costs, and equipment down-time to a minimum.
- Keep accurate, timely records of rolling stock, parts inventory, and all fuel use.
- Provide knowledgeable service and support to other City departments.
- Provide timely shipping, receiving, and delivery services for all City departments.

Vehicle and Equipment Maintenance

- To enhance the safety and efficiency of City staff by ensuring vehicles and equipment are well-maintained and in a high state of readiness.
- To protect the value of capital assets through a comprehensive preventative maintenance program.
- To accurately project long range funding requirements for overall City vehicle and equipment replacement.

Facilities Maintenance

- To protect the value and prolong the useful life of City facilities through a comprehensive repair and preventative maintenance program.
- To search for ways to conserve the public's funds in maintenance operations and operations of our City facilities.
- To maintain high skill levels in carpentry, plumbing, painting, electrical, mechanical systems, and landscaping to enhance safety and quality of life for citizens and staff.

PCR

General Fund: <u>Parks Culture and Recreation</u> (0102-315X; 325X;335X;345X; 355X; 365X) Responsible Manager/Title: Roger Blakeley, PCR Director

Mission Statement

To enrich our diverse community by providing exemplary, accessible, and safe cultural, leisure, and recreation facilities and services that nurture youth development and inspire people to learn, play, and engage with our unique and welcoming environment

Departmental Goals

Programing Division

- Design and implement a quality comprehensive parks and recreation program that meets the unique and changing needs of this diverse community.
- Engage local individuals, businesses, and non-profits with opportunities to volunteer, sponsor, and participate in PCR programming.
- Promote health, fitness, leisure enjoyment, cultural enrichment, and learning.
- Provide programs and services within budget maximizing the effectiveness of those funds for them most number of people.
- Continue to engage local cultural groups, especially the indigenous peoples of Unalaska, developing programming that seeks to help them teach and maintain their unique cultures

Park Operation Division

- Provide community members with safe and exceptional recreational opportunities
- Maintain and improve our city parks and facilities
- Provide the community with excellent customer service

Aquatics Division

- Offer more aquatic fitness classes to enhance the health and wellness of community members.
- Maintain a safe and clean environment throughout the Aquatic Center.
- Provide excellent services during swim meets, programs and events to enrich the aquatic experience for all patrons.

Library Mission Statement

Unalaska Public Library educates, enriches, and inspires community members by connecting them to the world and each other.

Library Goals

- Develop a free popular materials library that reflects the needs, interests, and diversity of the community.
- Provide free programs for all ages.
- Provide resources for both independent learning and formal education.
- Spark imagination and curiosity for all ages.
- Collect and provide access to Aleutian and Alaskan history materials.
- Serve as a gathering place for individuals and groups.
- Provide resources and technology that support community business needs.

COMMUNITY SUPPORT

CITY OF UNALASKA UNALASKA, ALASKA

RESOLUTION 2025-24

A RESOLUTION OF THE UNALASKA CITY COUNCIL ESTABLISHING THE SUMS TO BE MADE AVAILABLE FOR COMMUNITY SUPPORT AND CAPITAL GRANTS FROM THE CITY OF UNALASKA TO THE APPLICANTS FOR COMMUNITY SUPPORT FOR FISCAL YEAR 2026

WHEREAS, the City of Unalaska acknowledges, appreciates and supports the services provided to the community by non-profit agencies; and

WHEREAS, the City of Unalaska wishes to provide financial aid to the qualifying non-profit organizations listed through its Community Support Program; and

WHEREAS, the City of Unalaska has received ten (10) Community Support Grant Requests totaling \$2,270,165 for fiscal year 2025; and

WHEREAS, the funding guide for fiscal year 2025 community support, based on 3.5% of the average revenue for the General Fund for the five most recently completed and audited fiscal years, plus the funds available from Tobacco Excise Tax and Bed Tax, is \$1,719,896; and

WHEREAS, the City Council is recommending a total funding amount of \$2,249,559 for the Community Support Program, distributing accordingly per the next section.

NOW THEREFORE BE IT RESOLVED that the Unalaska City Council establishes the following amounts to be included in the fiscal year 2026 operating budget for community support and capital grants to non-profit organizations:

Community Grant Applicant	Amount
Aleutian Pribilof Islands Association	143,000
Iliuliuk Family Health Services (IFHS)	800,000
Museum of the Aleutians	386,716
Jnalaska Community Broadcasting/KUCB	130,500
Unalaska Senior Citizens	79,449
Unalaska Visitors Bureau	210,000
USAFV	392,838
Qawalangin Tribe Camp Qungaayux	71,056
ASFA Unalaska Chapter	20,000
Unalaska Little League	16,000
Total	2,249,559

PASSED AND ADOPTED by a duly constituted quorum of the Unalaska City Council on May 13, 2025.

ATTEST:

Estikarlen P. Magdaorig, CMC

City Clerk

MEMORANDUM TO COUNCIL

To: From: Mayor and City Council Members Cameron Dean, Planning Director

Through:

William Homka, City Manager

Date:

May 13, 2025

Re:

Resolution 2025-24 FY26 Community Support Grant

SUMMARY: The formula for determining funding for Community Support Grants is a guide and is calculated using a combination of General Fund revenue and the available balances in the Tobacco Excise Tax Fund and Bed Tax Fund.

Ten organizations submitted applications totaling \$2,270,165 for FY26.

All applications have been reviewed by Staff and were provided to Council for review. Staff does not make recommendations; the City Council decides how to fund the requests.

<u>PREVIOUS COUNCIL ACTION</u>: Each year from FY06 through FY17 Council established a special committee charged with reviewing and scoring the applications using the Council-approved evaluation tool.

Resolution 2016-78 eliminated the Grant Review Committee, allowing Staff to do a preliminary review of all applications and then pass the application reviews and other informational documents to Council.

Resolution 2019-64 increased the funding percentage from 3.4642% to 3.5% of the city's General

Fund revenue average for the past five (5) years. The purpose of the increase was to round the percentage up to a simple decimal number. The award amounts have varied over the years from 3.03% to 3.91%.

Resolution 2023-09 amended the funding formula guide to include Tobacco Excise Tax revenue.

Resolution 2023-42 revised the program guidelines to explicitly allow applications from the Qawalangin Tribe of Unalaska's Culture Camp program.

Resolution 2024-44 amended the language of the funding guideline.

Resolution 2024-45 adjusted some of the grantee reporting requirements.

On April 22, 2025 Council voted to postpone Resolution 2025-24 and directed the City Manager to facilitate a meeting between Council and the IFHS board and director.

BACKGROUND: Council heard presentations from each FY26 applicant during a work session on April 8, 2025. Program award history is provided in the attached table.

Per Council's directive, Staff facilitated a joint meeting between City Council, the City Manager and IFHS's board and CEO on Thursday, May 8.

DISCUSSION: The FY26 applicant agencies are identified in the table below.

FY26 Community Grant Application Summary Table

ORGANIZATION		FY26 REQ			
APIA	\$	143,000			
lliuliuk Family Health Services (IFHS)	\$	800,000			
Museum of the Aleutians (MOTA)	\$	386,716			
UCB/KUCB	\$	130,500			
Unalaska Senior Citizens (USC)	\$	79,449			
UVB	\$	210,000			
USAFV	\$	392,838			
Q-Tribe Camp Qungaayux *see below	\$	91,662			
ASFA Unalaska Chapter	\$	20,000			
Unalaska Little League	\$	16,000			
TO	STAL \$	2,270,165			

Q-Tribe Camp Qungaayux: Following the April 8 work session, the Tribe received an additional grant and has reduced its City request by \$23,604, from \$115,266 to \$91,662, accordingly.

FY26 Community Grant Funding Sources

The funding guideline adopted by Council in Resolution 2024-44 reads as follows:

NOW THEREFORE BE IT RESOLVED that the Unalaska City Council authorizes a new funding guide for the Community Support Grant Program to be three and one half percent (3.5%) of the average General Fund revenue for the five most recently completed and audited fiscal years; plus the current fund balance of the Bed Tax Fund and the Tobacco Excise Tax Fund, less committed amounts.

The table below shows the amounts available in FY26 based on that guideline and the anticipated fund balances for the Tobacco Excise Tax Fund and Bed Tax Fund at the end of the current fiscal year. Council may elect to award more or less in total than the guideline dictates.

The Tobacco Excise Tax Fund is specifically dedicated to public health or tobacco health education and cessation. The Bed Tax Fund is dedicated to fund visitor industries, historical and cultural projects, and programs that increase knowledge and appreciation for the community of Unalaska and its surroundings.

Source	Amount
General Fund (3.5% revenue avg)	\$1,226,043
Bed Tax	\$73,094
Tobacco Tax	\$420,759
TOTAL	\$1,719,896

ALTERNATIVES: Council may choose to fully fund all requests or make reductions as it sees fit.

<u>FINANCIAL IMPLICATIONS</u>: Financial implications depend on the level at which Council chooses to fund grant requests.

LEGAL: N/A

STAFF RECOMMENDATION: None. This is a Council decision

PROPOSED MOTION: I move to adopt Resolution 2025-24.

<u>CITY MANAGER COMMENTS</u>: I am concerned about the sustainability of the City's Community Support Grant program and recommend the Council discuss it as part of its sustainability plan.

The funding guideline adopted by Council in Resolution 2024-44 reads as follows:

NOW THEREFORE BE IT RESOLVED that the Unalaska City Council authorizes a new funding guide for the Community Support Grant Program to be three and one half percent (3.5%) of the average General Fund revenue for the five most recently completed and audited fiscal years; plus the current fund balance of the Bed Tax Fund and the Tobacco Excise Tax Fund, less committed amounts.

The Tobacco Excise Tax Fund is specifically dedicated to public health or tobacco health education and cessation. The Bed Tax Fund is dedicated to fund visitor industries, historical and cultural projects, and programs that increase knowledge and appreciation for the community of Unalaska and its surroundings.

SCHOOL SUPPORT

CITY OF UNALASKA UNALASKA, ALASKA

RESOLUTION 2025-23

A RESOLUTION OF THE UNALASKA CITY COUNCIL ESTABLISHING THE SUM TO BE MADE AVAILABLE FROM THE CITY OF UNALASKA TO THE UNALASKA CITY SCHOOL DISTRICT FOR FISCAL YEAR 2026

WHEREAS, the Unalaska City School District Fiscal Year 2026 Budget was received by the City of Unalaska by the April 1 deadline in accordance with UCO 2.98.090; and

WHEREAS, within 30 days after receipt of the school budget, the City of Unalaska is required by UCO 2.98.090 to determine the total amount of money to be made available from local sources for school purposes and make available to the Unalaska City School District Board of Education a statement of the sum to be made available; and

WHEREAS, failure to furnish the Board of Education with a statement of the sum to be available would automatically approve the amount requested in the budget by the Unalaska City School District; and

WHEREAS, by June 30 the City Council shall appropriate the amount of funds to be made available from local sources to the Unalaska City School District for educational purposes.

NOW THEREFORE BE IT RESOLVED that the City of Unalaska has established the sum to be made available for local funding of school purposes for Fiscal Year 2026 to be \$6,243,965, which includes \$4,398,965 for the maximum allowable local contribution and \$1,845,000 in funding beyond the set funding cap.

PASSED AND ADOPTED by a duly constituted quorum of the Unalaska City Council on April 22, 2025.

Vincent M. Tutiakoff, Sr.

Mayor

ATTEST:

Estkarlen P. Magdaeng, CMC

City Clerk

MEMORANDUM TO COUNCIL

To: Mayor and City Council Members From: Jim Sharpe, Interim Finance Director

Through: William Homka, City Manager

Date: April 22, 2025

Re: Resolution 2024-23: A Resolution of the Unalaska City Council establishing the

sum to be made available from the City of Unalaska to the Unalaska City School

District for Fiscal Year 2026

SUMMARY: Unalaska City Code 2.98.090 states that the School Board shall submit the school budget to the City Council by April 1 each year. Within 30 days after receipt of the budget, the City Council must decide on the total to be made available from local sources for school purposes and provide the School Board notice of the amount to be made available. By submitting its budget on March 21, 2025, the school district met the requirements of code. Through Resolution 2025-23, Council will establish the level at which the City will fund the school district for FY26.

PREVIOUS COUNCIL ACTION: Each year Council adopts a resolution indicating the local contribution to be made to the School District for the upcoming fiscal year.

BACKGROUND: Unalaska City School District (UCSD) is basing their FY26 budget request on the Governor's proposed Base Student Allocation of \$5,960 which is the same as last two years.

<u>DISCUSSION</u>: The School District submitted their budget on March 21, 2025 and presented their budget to Council on April 8, 2025. Council must indicate the level at which it intends to fund the District by May 1, the 30-day deadline set out in Title 2. Therefore, Council should adopt a resolution indicating the rate (Minimum Required Local Contribution or Maximum Allowable Local Contribution) at which they plan to authorize funding. For several years, the School District has requested funding at the Maximum Allowable Contribution rate, plus additional funding. In the past, Council has approved UCSD's requests for the maximum allowed by the cap and for funding that falls outside of the cap.

ALTERNATIVES: The Council has four alternatives:

- 1. If Council wishes to fund the full request that includes \$4,398,965 for the maximum contribution and \$1,745,000 in funding outside the cap, for a total of \$6,143,965. Resolution 2025-23 will be adopted as presented.
- 2. If Council wishes to fund only at the minimum required local contribution rate, Resolution 2025-23 must be amended to reflect the minimum required level of \$2,506,938 in local funding.
- 3. If Council wishes to fund only the request for funding at the allowable maximum level, Resolution 2025-23 must be amended to reflect the maximum local contribution level of \$4.398.965.

4. If Council wishes to fund the District's request at a level beyond the minimum required level but less than the maximum amount, Resolution 2025-23 must be amended to reflect that amount at which Council chooses to fund the district.

FINANCIAL IMPLICATIONS: The School District's FY26 Maximum Local Contribution request is \$4,398,965. The funding level requested for FY26 (and shown in the resolution) includes separate appropriations for community schools, preschool, food services, and student activities. The additional funding that falls outside the cap totals \$1,745,000.

LEGAL: Not applicable.

STAFF RECOMMENDATION: This is a Council decision, but Staff recommends that Council adopt Resolution 2025-23 establishing USCD's funding level for FY2026.

PROPOSED MOTION: I move to adopt Resolution 2025-23.

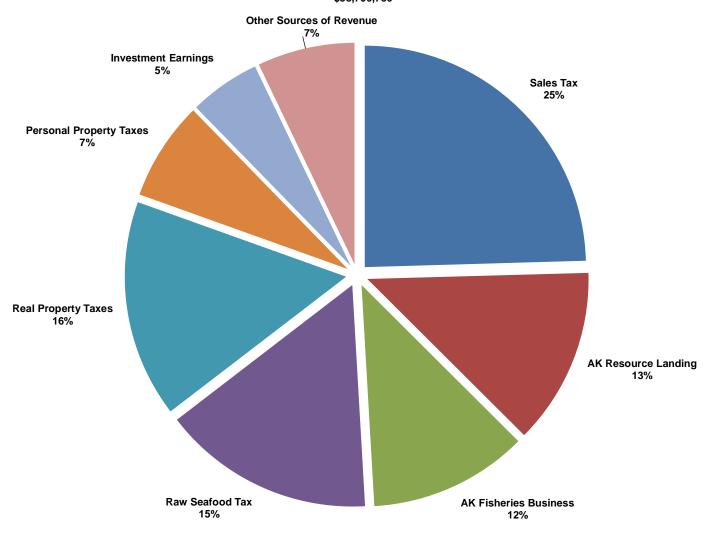

CITY MANAGER COMMENTS: I support the staff recommendation.

ELECTRIC UTILITY FUND

Electric Proprietary Fund: *Electric Production* (5001-415X) Responsible Manager/Title: Erik Hernandez, Acting Public Utilities Director

Mission Statement

The Mission of the Department of Public Utilities is to provide electric, solid waste, wastewater and water services that, within regulatory guidelines, meet or exceed our customers' needs and expectations for safety, quality and quantity.

Functions and Responsibilities

- Operates two diesel-generating plants with an installed capacity of 22.4 megawatts.
- Performs testing and monitoring for regulatory compliance and permitting requirements.
- Plans, carries out, and keeps records of preventative maintenance and repairs of generation equipment.
- Maintains a trained staff.

Departmental Goals

- To enhance the quality of life and promote economic development by ensuring that residents have a dependable source of electric power.
- To produce electrical power in the safest and most economical way possible in compliance with our ADEC Title V permits.
- To protect the City's investment in power production plant and equipment through a comprehensive preventative maintenance and repair program.
- To continue to seek ways to incorporate clean energy options as appropriate.

Electric Proprietary Fund: <u>Electric Line Repair & Maintenance</u> (5002-425X) Responsible Manager/Title: Erik Hernandez, Acting Public Utilities Director

Mission Statement

The Mission of the Department of Public Utilities is to provide electric, solid waste, wastewater and water services that, within regulatory guidelines, meet or exceed our customers' needs and expectations for safety, quality and quantity.

Functions and Responsibilities

- Repairs and maintains electrical distribution equipment within the City grid.
- Provides assistance in design and coordination of all capital projects involving electrical utilities.
- Reads and routinely tests electric meters and performs service disconnect and reconnect.

Departmental Goals

- To enhance the quality of life and promote economic development by ensuring that residents have a dependable source of electric power.
- To perform all duties in compliance with the National Electrical Safety Code, City ordinances, and other industry standards.
- To protect the City's investment in electric distribution infrastructure through a comprehensive preventative maintenance and repair program.

WATER UTILITY FUND

Water Enterprise Fund: *Water Operations* (510X-405X; 435X) Responsible Manager/Title: Erik Hernandez, Acting Public Utilities Director

Mission Statement

The Mission of the Department of Public Utilities is to provide electric, solid waste, wastewater and water services that, within regulatory guidelines, meet or exceed our customers' needs and expectations for safety, quality and quantity.

Functions and Responsibilities

- Maintains and operates all components of the public water system, including reservoirs, wells, buildings, hydrants and pipelines.
- Performs sampling and testing for regulatory compliance and permitting requirements.
- Works with customers on health, water use and water quality related issues.

<u>Departmental Goals</u>

- To enhance the quality of life and promote economic development by ensuring that residents have a dependable source of clean, safe water.
- To operate the utility in a safe, cost effective and environmentally responsible manner.
- To provide excellent customer service with a helpful, knowledgeable staff.

WASTEWATER UTILITY FUND

Wastewater Enterprise Fund: <u>Wastewater Operations</u> (5202-405X; 455X) Responsible Manager/Title: Erik Hernandez, Acting Public Utilities Director

Mission Statement

The Mission of the Department of Public Utilities is to provide electric, solid waste, wastewater and water services that, within regulatory guidelines, meet or exceed our customers' needs and expectations for safety, quality and quantity.

Functions and Responsibilities

- Maintains and operates all components of the public wastewater collection and treatment system, including lift stations, manholes, sewer lines and the wastewater treatment plant.
- Performs inspections, sampling and testing for regulatory compliance and permitting requirements.
- Responds to service calls to clear blockages, repair damaged services, vactor septic tanks and portable toilets.
- Maintains a trained, certified staff.

Departmental Goals

- To enhance the quality of life and promote economic development by ensuring that wastewater is collected, treated and disposed of reliably and safely.
- To operate the utility in a cost effective and environmentally responsible manner.
- To provide excellent customer service with a helpful, knowledgeable staff.
- To proactively sample plant influent and lift stations to give health providers advance notice
 of possible disease outbreaks.

SOLID WASTE UTILITY FUND

Solid Waste Enterprise Fund: **Solid Waste Operations** (5300-047X) Responsible Manager/Title: Erik Hernandez, Acting Public Utilities Director

Mission Statement

The Mission of the Department of Public Utilities is to provide electric, solid waste, wastewater and water services that, within regulatory guidelines, meet or exceed our customers' needs and expectations for safety, quality and quantity.

Functions and Responsibilities

- Operates and maintains the landfill and baler facility, including repairing the roads, drainage and fences.
- Conducts sampling and testing for regulatory compliance and permitting requirements
- Weighs vehicles, sorts and bales solid waste, stacks bales in cells and covers them daily, and arranges shipment for items to be sent off-island.

Departmental Goals

- To enhance the quality of life and promote economic development by ensuring that solid waste is handled and disposed of reliably and safely.
- To operate the utility in a cost effective and environmentally responsible manner.
- To maintain regulatory requirements.
- To seek new technologies required to responsibly and economically extend the life of the Landfill facility.

PORTS & HARBORS FUND

General Fund: <u>Dock Operations, Harbors, and Ports Security</u> (5400-054X)

Responsible Manager/Title: Scott Brown, Acting Port Director

Mission Statement

To promote the growth and health of the community through planning, development, and management of marine related municipal properties and facilities to provide moorage and other marine services on a self-supporting basis.

Departmental Goals

- To manage and maintain city port facilities at a high standard and provide for a safe environment for users.
- To provide accurate and timely financial information to the Finance Department for billing.
- Manage safe moorage for all vessels at City facilities
- To respond to customer complaints in a timely manner.
- To have a trained staff ready to respond to a variety of emergencies and situations.
- To keep policies and procedures current.

AIRPORT FUND

General Fund: <u>Airport Admin and Operations</u> (5500-051X) Responsible Manager/Title: Scott Brown, Acting Port Director

Mission Statement

To provide, operate and develop an air transportation facility to serve the community while maintaining the highest level of safety, convenience and efficiency.

Departmental Goals

- To provide an attractive and secure airport facility for citizens, visitors and staff.
- To maximize revenue sources to support the airport operations.
- To keep policies and procedures current and relevant for staff to follow and be effective
- To reduce costs through efficient operations

HOUSING FUND

General Fund: <u>Housing Administration & Operations</u> (5600-058X) Responsible Manager/Title: Marjie Veeder, Deputy City Manager

Mission Statement

The mission of Housing Administration & Operations is to enhance employee recruitment and retention by providing a portion of the City's workforce with decent, safe, quality housing for themselves and their immediate family.

Departmental Goals

- To provide housing opportunities for the recruitment and retention of employees, especially for certain critical positions, and offer available units to current employees in Unalaska's tight housing market.
- To ensure that the housing policy remains relevant and effective, and achieves the objectives and desired outcomes.
- To responsibly manage the Housing Propriety Fund.
- To work cooperatively with the Facilities Maintenance Division to maintain City-owned housing units.
- To work cooperatively with the Finance Department to accurately maintain deposits, housing payroll deductions and refunds.

CAPITAL AND MAJOR MAINTENANCE PLAN

CITY OF UNALASKA UNALASKA, ALASKA

RESOLUTION 2025-31

A RESOLUTION OF THE UNALASKA CITY COUNCIL ADOPTING THE FY26-FY35 CAPITAL AND MAJOR MAINTENANCE PLAN

WHEREAS, the purpose of the Capital Major and Maintenance Plan (CMMP) is to formalize the process of identifying and completing capital projects and major maintenance projects; and

WHEREAS, the CMMP serves as a tool to help the City effectively and efficiently meet the needs of the community; and

WHEREAS, City Departments were invited to submit project nominations; and

WHEREAS, this planning document outlines anticipated or recommended projects and expenditures for the upcoming ten years; and

WHEREAS, City staff and City Council have had the opportunity to review and comment on the nominations and the FY25-FY34 CMMP.

NOW THEREFORE BE IT RESOLVED that the Unalaska City Council approves and adopts the ten-year CMMP, for FY25-FY34, as presented by the City Manager pursuant to Unalaska Code of Ordinances § 6.12.040, and as amended by City Council on May 13, 2025.

PASSED AND ADOPTED by a duly constituted quorum of the Unalaska City Council on May 13, 2025.

Vincent M. Tutiakoff, Sr.

Mayor

ATTEST:

Estkarlen P. Magdaong, CMC

City Clerk

MEMORANDUM TO COUNCIL

To: From: Mayor and City Council Members Cameron Dean, Planning Director

Through:

William Homka, City Manager

Date:

May 13, 2025

Re:

Resolution 2025-31: Adoption of the FY26-35 Capital and Major Maintenance

Plan

SUMMARY: City Council reviews the Capital and Major Maintenance Plan (CMMP) every year. The resolution tonight will adopt the FY26-35 CMMP.

<u>PREVIOUS COUNCIL ACTION</u>: Last year the Council approved the FY25-34 CMMP, with 31 projects and a total portfolio of \$119,767,593 over ten years. The first year of the CMMP is the most important because the financial figure represents what is approved to be budgeted. Council approved \$6,268,574 for FY25, excluding external funding.

Council approved Resolution 2025-04 adopting its priorities for this year's CMMP. Regulatory Compliance, Impact on Operational Budget and Infrastructure/Public Safety were identified as top concerns. Staff focused on these factors while reviewing the nominations.

BACKGROUND: Beginning in November, Planning Department staff have worked with each department to update their capital projects. The council has held four work sessions this year on new project nominations and various drafts of the CMMP.

<u>DISCUSSION</u>: The final draft of the FY26-35 CMMP proposes \$7,212,070 from the General Fund, \$6,444,908 from the 1% Fund and \$10,941,360 from proprietary funds in FY26. Some of this funding comes from the crab disaster relief the City received in FY25 and some was previously appropriated to other projects. These are explained in more detail below.

1% Fund	6,444,908
Electric Proprietary Fund	3,541,250
General Fund	7,212,070
Grant	2,675,000
Ports Proprietary Fund	6,285,110
Private Contribution (OC)	1,000,000
Solid Waste Proprietary Fund	265,000
Wastewater Proprietary Fund	150,000
Water Proprietary Fund	700,000
Total	28,273,338

Electric

Resolution 2025-32 tonight would close out the Makushin Geothermal capital project (EL22B), returning its remaining \$4,481,045 to the 1% Fund. This project was created as part of the power purchase agreement (PPA) with OCCP and was intended to fund upgrades to the City's electric infrastructure to accommodate geothermal.

As discussed at the last work session, staff propose devoting the returned funds to two related efforts:

The Subtransmission Upgrades project essentially accomplishes the same upgrades to improve the reliability and capacity of the City's electric grid. It is a three-year project that will be funded using a combination of the returned 1% Fund money, a grant and General Fund.

Makushin Geothermal Testing would drill a test well to prove the geothermal resource. Testing is currently estimated at \$2M. The City has asked the Ounalashka Corporation to split the cost evenly.

Robert Storrs Small Boat Harbor Improvements

The CMMP, as proposed, amends project PH905 to include the remaining funding—\$8,596,044—for the Robert Storrs Harbor A and B Float Replacement. This is approximately a \$200,000 increase from the total presented in the last worksession and is based on the most recent engineers' estimate. This balance will be covered by the crab disaster relief (in the General Fund) and the 1% Fund.

Additionally, although not currently included in the CMMP budget, the Council can consider an allocation of \$368,528 for the construction of a 60-foot slip on the outside of A Float. Should the Council choose to include additional slip Council would have to further amend the CMMP to incorporate this additional project funding.

Remaining CMMP Council Presentations

6/10	1st Reading of Final Budget
6/24	2 nd Reading of Final Budget

ALTERNATIVES: Council may direct Staff to make changes to the CMMP or reject it entirely.

FINANCIAL IMPLICATIONS: If Council adopts the CMMP, Staff will include its FY26 expenditures shown in the table above in the final budget.

LEGAL: City Code requires the City Manager to submit a capital improvement program for the following five fiscal years to accompany the proposed operating budget.

STAFF RECOMMENDATION: Staff recommends approval.

PROPOSED MOTION: I move to adopt Resolution 2025-31

CITY MANAGER COMMENTS: I support the staff's recommendation.

Project Description: This project includes the design, procurement, construction, integration and commissioning of one 1 MW energy storage system.

Project Need: Large equipment, such as ship to shore cranes, demand electrical supply loads that exceed the power supply system's intended loading profile. To smoothly provide a continuous, undiminished power supply under loads that can suddenly spike to 10 to 15% of the total load in seconds, the engines must constantly react to both the rapid increases and decreases of the system load. The engines' reactions decrease efficiency and create undue mechanical and electrical wear on the equipment and distribution system. Additionally, generation dispatch is often significantly affected due to the inability of the facilities to operate in the most efficient configuration possible. The proposed energy storage system will arrest the rapid changes in the electrical load.

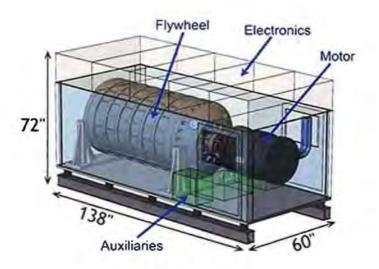

Development Plan & Status: Design will be accomplished in FY26 and installation will immediately follow. Permitting is not anticipated for this project. This project will be funded by the Electrical Proprietary Fund.

This project will only proceed if the City does not proceed with the Wind Energy Development Project.

FY26-35 CMMP

Electric Energy Storage System

Estimated Project & Purchase Timeline

Source	Appropriated	2026	2027	2028	2029	2030	2031	2032	2033	2034	2035	Total
Electric Proprietary Fund	371,312	2,750,000	0	0	0	0	0	0	0	0	0	3,121,312
Total	371,312	2,750,000	0	0	0	0	0	0	0	0	0	3,121,312

Project Description: All Generation and distribution/feeder breakers at the New and Old Powerhouse and Town Substation will be serviced by a qualified industry service company. Breakers will be assessed and serviced. A detailed report indicating condition of the specific breakers will be provided along with recommended service maintenance intervals per the relevant industry codes.

Project Need: The City operates two powerhouses, New and Old Powerhouse, and one substation. Each of these facilities has at least one, possibly two primary electrical switchgear line-ups within each. Electrical switchgear require maintenance and cleaning to ensure proper operation. Safe operation switchgear reduces risks of arc-flash issues and improves operator safety. In the last five years, there has been very little major maintenance and testing activities performed at any of the powerhouses or Town Substation switchgear line-ups. Only general visual maintenance has been performed, except during the installation of the Unit 12 (CAT C280) project. A modification at the Town Substation was made as part of that project. During the implementation of the modification, the Contractor found that one of the substation breakers would not open/close properly. EPC onsite technicians working with EPC electrical maintenance leads in Anchorage were able to repair the breaker so that it will function properly. However, no other maintenance has been performed on this breaker or others. This project is part of the Electrical master Plan.

Development Plan & Status: This project will be funded by the Electric Proprietary Fund.

Cost Assumptions

Total	0	0	234,000	0	0	0	0	0	0	0	0	234,000

Project Description: This project funds the purchase of ongoing replacement equipment for the electrical distribution system. It includes electrical switches, section cans, transformers, and cables. Electrical equipment will also be purchased for new customers and for existing customers who need to upgrade electrical service.

Project Need: Ongoing replacement of the distribution system equipment is necessary to maintain its reliability and protect the assets of the City and ensure the safe distribution of electricity. This project will correctly capture and capitalize the expenditures made to keep the system operational as well as in expand the system where necessary.

Development Plan & Status: Funding for this project will come from the Electrical Proprietary Fund retained earnings.

FY26-35 CMMP

Electrical Distribution Equipment Replacement

Source	2026	2027	2028	2029	2030	2031	2032	2033	2034	2035	Total
Electric Proprietary Fund	500,000	500,000	500,000	500,000	500,000	500,000	500,000	500,000	500,000	500,000	5,000,000
Total	500,000	500,000	500,000	500,000	500,000	500,000	500,000	500,000	500,000	500,000	5,000,000

Project Description:

Engines 8 & 9 Control Upgrades (FY26): This project would provide engineering and installation services for upgrading the existing analog controls on units 8 and 9 with digital controls and a fiber network.

Engines 10, 11, 12 & 13 Control Upgrades (FY27): This project would provide engineering, programming, installation and commissioning to upgrade the existing PLCs on the New Powerhouse Wartsila and Caterpillar Generators and the common PLC.

Project Need:

Engines 8 & 9 Control Upgrades (FY26): The upgrades would enhance current start, stop, synchronization and load sharing between large and small generation units. Currently, hardware prevents specific units from operating simultaneously, this upgrade aims to correct this deficiency. The digital upgrades will also provide operators with the ability to monitor additional parameters on the units, ei temperature, pressure, enhancing the overall system efficiency, performance, and user experience.

Engines 10, 11, 12 & 13 Control Upgrades (FY27): The Concept PLC modules installed on the Wartsila generators and common PLC are no long er in production (since 2015). Additionally, Shneider Electric ended support for the PLC software, Concept, May of 2015, it also requires Windows XP, which is no longer supported. Wartsila also used proprietary function blocks in the PLC code. This has made troubleshooting difficult through large parts of the PLC program causing support issues to take more time for the powerhouse technicians. Also, any adjustments to the PLC logic are very difficult with custom function blocks that cannot be modified.

Development Plan & Status: Funding for this project will come from the Electric Proprietary Fund and grants. In FY26 it is being funded primarily through a grid resiliency grant received by an OC-led consortium. The funding will be passed to the City for the project, and the City will additionally contribute \$26,250 of matching funds. The grant is formula-based, and Staff plans to use future funding for this project if received.

FY26-35 CMMP

Engine Control Upgrades
Electric

Estimated Project & Purchase Timeline

Source	Appropriated	2026	2027	2028	2029	2030	2031	2032	2033	2034	2035	Total
Electric Proprietary Fund	0	26,250	575,000	0	0	0	0	0	0	0	0	601,250
Grant	0	175,000	0	0	0	0	0	0	0	0	0	175,000
Total	0	201,250	575,000	0	0	0	0	0	0	0	0	776,250

Project Description: This project consists of inspection, major maintenance, and rebuilds of the primary generator sets in the Unalaska Powerhouse. The maintenance schedule for the generator sets at the Unalaska Powerhouse is determined by engine hours. Engine inspections are also conducted by the manufacturer's mechanics to determine if engine rebuilds are needed or if they can be prolonged according to the hourly schedule.

Project Need: These generator set rebuilds are needed to maintain our equipment and the reliability of our electrical production. Our Certificate of Fitness from the Alaska Energy Authority states that we must keep all electrical generating equipment in good running condition.

Development Plan & Status: Due to the high cost of the engine rebuilds, it has been determined that the cost will be capitalized. Costs for the Generator Sets rebuilds can fluctuate greatly according to what is determined by the maintenance inspections. Costs for these rebuilds has been determined by the worst case scenario according to the history of the engines. Money that is not used for rebuilds by the end of the fiscal year, will be returned to the proprietary fund.

FY26-35 CMMP

Generator Sets Rebuild

Source	Appropriated	2026	2027	2028	2029	2030	2031	2032	2033	2034	2035	Total
Electric Proprietary Fund	455,000	215,000	215,000	973,000	565,000	0	0	0	0	0	C	2,423,000
Total	455,000	215,000	215,000	973,000	565,000	0	0	0	0	0	C	2,423,000

Project Description: As part of the City's ongoing commitment to improving community-wide power availability and quality of life, this project proposes a \$1M allocation – matched by an additional \$1M from the Ounalashka Corporation (OC) for a total of \$2M in funding for preliminary geothermal exploratory drilling. The scope includes drilling three exploratory wells with the potential for a four if logistical and drilling conditions are favorable. Surface-based survey methods such as geophysical surveys are not sufficient to directly confirm or assess geothermal resources. Exploratory drilling is the fastest and most reliable method to determine whether a viable resource exists and to identify its precise location.

Project Need: The City has been actively exploring alternative energy solutions to enhance long-term energy resilience and sustainability. Geothermal energy represents a stable renewable source of base load power that could significantly benefit the community. Developing a geothermal resource involves several key steps beginning with the resource assessment, followed by feasibility analysis, infrastructure development, and eventual integration into the local power system. This project focuses on the critical first step: determining whether a viable geothermal resource is present and can be developed.

Development Plan & Status: Development includes the procurement of necessary agreements with OC, finalization of drilling and assessment plans, and execution of the exploratory drilling phase. The outcome will be a comprehensive technical assessment and recommendation regarding the presence and viability of the geothermal resource. This final deliverable will support an informed decision on whether to move forward with the full-scale geothermal development.

Source	Appropriated	2026	2027	2028	2029	2030	2031	2032	2033	2034	2035	Total
1% Fund		0 1,000,000	0	0	0	0	0	0	0	0		1,000,000
Private Contribution		0 1,000,000	0	0	0	0	0	0	0	0		1,000,000
Total	7	0 2,000,000	0	0	0	0	0	0	0	0	(2,000,000

Project Description: This project would construct a new diesel power plant in Pyramid Valley. It would begin with permitting in FY27 at \$500,000. Typical permitting costs include application fees, emissions modeling, compliance, correspondence and analysis costs. Fees can vary regarding the size of facility, type of engine and how emissions are modeled. Commissioning costs, including stack testing and administrative costs such as public hearings and/or notices would be covered separately. Permitting is necessary to construct additional diesel capacity at Pyramid Valley. Following permitting, the power plant package includes:

- (7) Electro Motive Diesel (EMD Brand) Generators; 2.67MW Capacity
- Steel Package for facility
- Engineering, Project Management, Commissioning
- Electrical Gear (Transformers, sectionalizing gear, etc.)
- 35kV, Needed cabling from Pyramid Power Plant to Trident Facility.
- Shipping costs

Project Need: This plant is needed for load shaving and additional generation capacity for the proposed Trident Facility. It is not necessary to meet current demand. It will be needed regardless of whether wind energy is also developed at Pyramid Valley.

Development Plan & Status: In the last meeting of January, Council was presented with three strategies for funding the large scale FY27 and FY28 Diesel Generation Projects.

Strategy 1: U.S. Department of Agriculture: Rural Utility Service Loan

This option is probably the City's best option to pursue first. It's a low-interest rate loan program that provides funding to water, wastewater and electric utilities to conduct infrastructure improvements. The amounts borrowed can be paid back in a 30 year schedule, including construction, for a total of 30-35 years. Interest rates can vary between 2-3% depending on utility financial status. Needs for Funding:

The study EPS provided was a high-level overview of the status of the utility, and future needs for current and future customers (Trident). In order to pursue this loan program, we need the following:

- Load data, construction plans, and timeline from Trident.
- Executed PPA with Trident.
- Completed "Load Impact Study" includes, actual estimated load data from trident and rate study based on PPA.

Strategy 2: Proprietary/General Funds/Grants; this was not recommended.

Strategy 3: Private Investment

If the City decides to pursue the loan program and is approved, funds may be used on an as-needed basis, similar to a line of credit; only the amount spent is owed. This program provides the utility with a financial safety net, preventing delays in large infrastructure projects. The application process is 6 months to a year.

Project Description: This project consists of multiple upgrade's to the City's electrical grid, including replacement of the submarine cable at Iliuliuk Bay, 35kV feeder replacement, intermediate level protection and a new 4-way switch at Town Substation.

Upgrades within this project include:

- Submarine Cable Replacement at Iliuliuk Bay (\$2,320,000)
- Multi-phase replacement of "E" and "S" circuits. (\$9,860,000)
- Intermediate Level Protection for 35kV System (\$930,000)
- New 4-way switch at Town Substation (\$192,000)

Project Need: Upgrades are necessary for continued reliability and improving capacity to accommodate new generation sources.

Development Plan & Status: The City has received a congressionally directed spending (CDS) award for \$2.5 million for the project, though it is currently on hold due to the federal funding pause. Staff and contractors are still developing the project, but completing the upgrades will likely take several years.

Project Description: This project will integrate a medium-speed diesel generation at the Pyramid Powerhouse, create a 5 MW wind power system, and purchase a 3 MW / 6 MWh battery energy storage system (BESS) to stabilize the microgrid and reduce reliance on external fuel sources. Other planned upgrades to the 35 kV subtransmission system, submarine cables, and smart grid controls will improve grid reliability, support industrial growth, and ensure long-term resilience for the community.

Project Need: This project was designed to address Unalaska's most pressing energy challenges, including:

- The need for distribution upgrades as outlined in EPS's recent load growth impact study.
- 2. Efficiency improvements to maximize existing infrastructure performance.
- 3. Growing demand from industrial customers.
- Fuel price volatility, which affects the affordability and predictability of power costs.
- Air permitting restrictions limiting the ability to expand conventional generation at the Dutch Harbor Power Plant.

Development Plan & Status: In February of 2025, the City of Unalaska submitted a concept paper to the Office of Clean Energy Demonstrations, a part of the US Department of Energy, for their 'Energy Improvements in Rural or Remote Areas (EIRRA)' grant program. The submitted concept paper is the first step in the application process. If the City's project is deemed promising, we will be invited to submit a full application to OCED in the fall. The project we submitted was titled 'Unalaska Resilient Energy Expansion' (UREE), and revolved around increasing the island's energy security by adding a battery energy storage system (BESS) and establishing wind power. The City asked for \$25.3 million for the UREE project, with a cost share of \$6.3 million.

If this project is funded, it will make the separate Electric Energy Storage System project redundant. In that case, that project will be closed and the funds returned.

FY26-35 CMMP

Total	0	0	32,548,287	0	0	0	0	0	0	0	0	32,548,287

Project Description: Procurement of a replacement for Engine 3.

Project Need: Engine 3 is 20 years old and reaching the end of its expected life, beyond which maintenance costs increase significantly, and the risk of mechanical failures and breakdowns rise. The pump is currently malfunctioning, and Staff is working on options to repair or replace it, but doing so is costly and may not ensure long-term reliability.

New fire trucks have exceptionally long lead times approaching 5 years. Additionally, Engine 3 is poorly designed with poor maneuverability in tight spaces and high compartments that increase the risk for injury to responders. Change in apparatus status can negatively impact citywide insurance premiums by lowering the Insurance Services Office (ISO) rating.

Development Plan & Status: Purchasing and paying promptly would allow the City to secure the lowest possible price. This also shortens the lead time by guaranteeing the City's place in the production queue. Major manufacturers have comparable lead times across the industry, and readily available stock vehicles are extremely limited. As such, Staff propose ordering a replacement apparatus as soon as possible.

FY26-35 CMMP

Engine 3 Replacement

Estimated Project & Purchase Timeline

Total		0 1,500,000	0	0	0	0	0	0	0	0	0	1,500,000

Project Description: The proposed project entails the construction of a standalone fire station with an integrated training facility and housing units for live-in student firefighters, aligning with the fire department's 5-year strategic plan. This initiative addresses immediate and future community needs, including providing a safe refuge during major events, ensuring ADA compliance and planning for future expansion of current and new partnerships for the City.

Project Need: The integrated training center aims to conduct various in-house training programs, minimizing the need for external training and reducing associated costs. Specialized areas for live-fire exercises and high-angle rescue training ensure comprehensive instruction for staff. The inclusion of live-in student firefighters, as part of a robust 5-year strategic plan, fosters a dynamic learning environment, supported by dedicated educational spaces within the station. The live-in program mirrors successful programs elsewhere, offering a pathway for individuals to receive post-secondary education while bolstering staffing levels at minimal cost to the department.

Development Plan & Status: A feasibility study considering both new sites and renovation of the existing building is underway. Council will receive the preliminary presentation of the feasibility study this summer and a final presentation in the beginning of fall that will go deeper into the recommended location and design. Staff will revise the project plan based on Council's direction following that presentation.

Currently, the CMMP depicts the entire project budget coming from the General Fund. However, there are multiple potential funding sources from the US Fire Administration, FEMA, the Alaska Mental Health Trust and others that Staff is evaluating. The state legislature is also considering funding to support rural fire department infrastructure.

Project Description: This project would install a backup generator at the Library.

Project Need: The library has long served as a vital community resource, and with the ongoing need for reliable access to technology and services, the generator will ensure that we can continue to provide uninterrupted service during power outages, especially those that may last for extended periods.

Uninterrupted Access to Free Internet: The library is the only source of free internet access in the city, and many residents rely on this service for a variety of essential tasks such as job applications, education, accessing government services, and connecting with family members. A generator will ensure that we can maintain this critical service even during power outages, which can be particularly disruptive for individuals who do not have access to the internet at home.

Community Support During Emergencies: Power outages can be stressful and isolating, particularly for vulnerable populations such as elderly individuals or those with limited resources. By maintaining operations during these times, the library will continue to serve as a safe space for those needing to stay connected, seek information, or access emergency resources.

Reliable Backup Power for Library Services: In addition to internet access, the generator will allow the library to continue offering its other essential services, including access to computers, printing, and community programs. This will ensure that the library remains an essential community hub in times of crisis.

Development Plan & Status: The generator itself was previously purchased using COVID relief funding to support the Public Safety radio repeater on Haystack. Funding would provide for permanent installation of the generator at the Library.

Project Description: Replacement of the Skate Park at a new site with comparable equipment and construction of a paved pump track.

Project Need: The current Skate Park is old and needs to be replaced. It's had many different paint jobs and rust has made certain areas dangerous. The current location of the Skate Park sits on real estate that has been leased for IFHS's expansion. Adding a pump track would greatly increase what that park can offer and its use.

Development Plan & Status: This project will be funded by the General Fund.

FY26-35 CMMP

Pump Track and Skatepark

Project Description: This major infrastructure improvement project constructs drainage, utilities, and pavement out Captains Bay Road, 1.4 miles long, between Airport Beach Road and the south end of the Westward Seafoods Complex. Work on the existing gravel road includes widening the road to 13-ft lanes with 2-ft shoulders, base & various areas of embankment reconstruction, new asphalt pavement, and new 6-ft paved separated multi-use path. Project includes selective replacement of storm drain pipes & inlet structures. Utilities are ineligible for the CTP Grant.

Project Need: Captains Bay Road is a primary transportation route for Westward Seafoods, North Pacific Fuel, Northland Services, Offshore Systems Inc., and several small businesses as well as residential areas. The road facilitates high traffic for heavy vehicles used by the fishing and support industries vital to the community's economy. In 2011 the City held public meetings regarding the Road Improvement Master Plan. Residents and industry representatives discussed Captains Bay Road and hazards its high road crown creates. The crown is needed for adequate drainage. There was strong support for improvements to Captains Bay Road. Captains Bay Road also presents future growth opportunities for the community as identified in the City's Comprehensive Plan.

Development Plan & Status: Segment A project funding was approved for the State Transportation Improvement Program. The grant and City match for that segment totals approximately \$13.16 million.

Segment A Paving, \$13,155,001 Safety Improvements, \$4,500,000 Segment B Paving, \$10,300,000 Segment C Paving, \$3,100,000 Segment D Paving, \$10,700,000

Project Description: In 2022, City Council committed \$250,000 to the Rusting Man Foundation to establish a memorial in Unalaska to commemorate fishermen lost at sea. The City leased space above the Carl E. Moses boat harbor and entered into an agreement with the artist for maintenance and ownership of the memorial.

Project Need: The City agreed to provide electric service and necessary safety improvements to the site selected for the Fishermen's Memorial.

Development Plan & Status: The artist began construction of the memorial last summer. The City's component will consist of two phases:

- Electric utility extensions for lighting and security cameras. Basic site preparation and necessary safety improvements will be completed to allow installing the memorial.
- 2) Improve the site with additional landscaping, parking and other improvements.

Total	0	500,000	0	0	0	0	0	0	0	0	0	500,000

Project Description: The dredging for the Unalaska Marine Center (UMC) and the Light Cargo Dock (LCD) is one of several projects that were developed to enhance commerce and safety for deep draft vessels in Dutch Harbor proper. In 2019 The City of Unalaska completed the renovation of Unalaska Marine Center (UMC) in preparation for deeperdraft cargo vessels. The renovation project of this industrial dock extended crane rails, added gantry crane infrastructure, fuel headers, and increased load capacity. The depth at the UMC dock face currently ranges from -38 to -40 feet. In 2019, the Corp of Engineers began the feasibility for Dredging the Entrance Channel into Dutch Harbor to -58 feet, currently at -43 feet. The USACE project is to accommodate the passage of deep-draft vessels to the cargo facilities inside Dutch Harbor. The dredging at UMC and LCD marries the USACE dredging and the UMC renovation projects together to meet the demands for deep-draft cargo operations. The UMC and LCD dredging project will bring the water depth at the face of UMC to -45' MLLW making it truly deep draft and operational for the deep draft vessels soon to navigate through the entrance channel. The dredging project for UMC and LCD have been earmarked and waiting for the approval of Congressional funding for the USACE entrance channel dredging so these projects could work in concert and recognize some efficiencies by sharing resources and the permitting processes. Congregational funding has been received for the USACE Entrance Channel Dredging project and in concert the City of Unalaska is moving forward with the UMC and LCD Dredging project. The Light Cargo Dock will be dredged to -35' and will then accommodate a wider range of fuel vessels, cargo vessels and catcher-processers. The Light Cargo Dock serves as a gear transfer dock and overflow for vessels not able to confirm space at UMC. The Light Cargo Dock, currently at -23 feet, will be dredged to -35 which is the maximum depth for the dock as designed and constructed. UMC will be dredged to -45 feet in order to accommodate deep-draft container ships and tankers. The UMC and LCD Dredging Project includes costs for the geotechnical work, bathymetry studies, permitting, means of dredging, disposal site, mobilization and demobilization and construction.

Project Need: The completion of this dredging will enhance current and future operations by creating usable industrial dock face that is designed for vessels in varying lengths and tonnage.

Development Plan & Status: It is estimated that the dredging project for the Unalaska Marine Center and the Light Cargo Dock will coincide with the timing of the USACE Dredging. State funding has been requested through CAPSIS for FY26.

Source	Appropriated	2026	2027	2028	2029	2030	2031	2032	2033	2034	2035	Total
Ports Proprietary Fund	3,654,145	700,000	0	0	0	0	0	0	0	0	0	4,354,145
Total	3,654,145	700,000	0	0	0	0	0	0	0	0	0	4,354,145

Project Description: This project will remove the existing A and B Floats at the Harbor and reconfigure the Harbor to accommodate a new float system, ADA gangway and create uplands for parking and a public restroom. It will also include a fire suppression system, electricity and year-round water supply to users and new piling.

Project Need: This project would include replacing the deteriorated floats and reconfiguring the floats and fingers of A and B Floats to include updated electrical system, lighting, fire suppression, year-round utilities, and an ADA-required gangway. Based on current engineer concepts, the reconfiguration of A and B Floats will create at least 30 additional slips plus linear tie options. This should alleviate some of the 30 vessel waiting list. The reconfiguration will also allow for development of the uplands for required parking and a public restroom. The existing dock arrangement was carried over from a previous location. In order to accommodate the vessel demand at the Robert Storrs Harbor, a new configuration of the floats would allow for better use of the basin based on bathymetry and navigational approaches and also allow for additional vessel slips, with minimal fill and no dredging. It will add a significant number of slips for vessels 60' and under. This is an extension of the Robert Storrs Float Replacement Project. C Float was completed in FY16. As the Float Replacement Project for Robert Storrs is being constructed in phases it was logical to separate the phases into separate projects for tracking purposes.

Development Plan & Status: The total estimated cost is \$15,085,110, with \$6,695,000 already appropriated. An additional \$5 million grant application was submitted and received the highest score among applicants, though it was not included in the governor's budget. Staff proposes covering the remaining costs through a combination of the Ports Proprietary Fund, 1% Fund and crab disaster relief. The cost increases over the last several years can be attributed to design changes including electrical, uplands and parking, as well as survey work for the newly acquired submerged tidelands from the State of Alaska. Plans also include a restroom and increased parking.

Total	0	500,000	630,000	11,300,000	0	0	0	0	0	0	0	12,430,000

Project Description: This project includes resurfacing the dock at positions 5-7, replacing the old crane tie-downs and replacing the old crane stop. It also will pave the backreach with Pavers.

Project Need: Unalaska Marine Center opened for business in 1992 and over the last 31 years of cargo operations there has been settling of the compacted rock beneath the concrete surface. This has caused undulating surface, drainage issues and should it continue settle this cold impact the integrity of the tale walls. The concrete needs to be removed, more rock added and compacted, drainage addressed, and resurfaced. Crane rails will also be inspected and repaired if necessary during this project. This is not unexpected maintenance. With the proven benefit of concrete pavers this project can now be done without significant impact to cargo operations at less expense.

Development Plan & Status: Matson and the City partnered on a Ports Infrastructure Development Program (PIDP) grant last fiscal year, and the application advanced to the Secretary's desk. The team has been strongly encouraged to reapply with a more developed design. The City is in the process of applying for the PIDP and Council has authorized negotiations and MOU for engineering. The City will end up owning the project and wants the new systems to be compatible with the current dock structure and for this reason is budgeting for engineering. The PIDP grant will cover the entire cost of construction if awarded.

Project Description: This project would replace the belt which feeds the baler. The typical lifetime of the belt is 10 years, the belt was last replaced in 2014. Recent inspections show excess wear that if not addressed could lead to additional damage to the surrounding structure. Funds will cover cost of conveyor, labor and shipping.

Project Need: The belt system plays a crucial role in the efficient operation of the baler system at the landfill. As the solid waste staff sort through the feedstock, it is placed onto the conveyor belt, which transports it directly into the baling system. A prolonged breakdown of this system would impose significant financial and operation challenges on the division. However, with proper maintenance and oversight, the division can ensure uninterrupted service delivery for this essential function.

Development Plan & Status: This project will be funded by the Solid Waste Proprietary Fund.

Baler Belt Replacement Solid Waste

Estimated Project & Purchase Timeline
Pre Design: FY26

Engineering/Design: FY26
Purchase/Construction: FY26

Project Description: The replacement of the Solid Waste facility weighing/scale system. This project would cover materials cost, installation and commissioning.

Project Need: The current scale/weighing system at the Landfill is reaching the end of its lifetime. Since installed in 1997 the scale system has required minimal maintenance and repairs; however, due to its age and environmental conditions, a replacement will be needed in the near future. If a major breakdown were to occur, the Solid Waste Division would have to use an alternative measuring method for receiving solid waste at the City's Landfill (cubic yards). The following key points are provided to reference the current condition of the scale/weighing system:

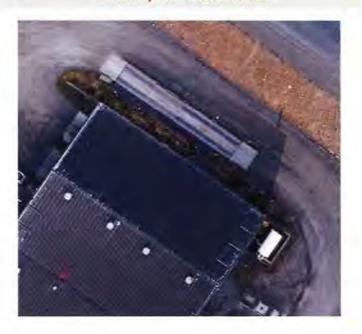

- Cell covers have been rebuilt several times due to excess rust.
- Top plates, expansion plates are worn to the point of replacement.
- Conduits, conduit holding racks have been damaged throughout years of use and maintenance.
- Overall structural integrity has diminished due to excess rust.

Development Plan & Status: Funding for this project will come from the Solid Waste Proprietary Fund. The budget for this project was estimated based on quotes provided by vendors in past years. Once materials are procured, City staff will work with contractor to complete the replacement and commissioning.

Total	0	175,000	0	0	0	0	0	0	0	0	0	175,000

Project Description: The pre-design, design, and construction of a Gasifier to incinerate garbage.

Project Need: The Landfill cells are reaching capacity. If the current cells reach capacity, new ones will need to be opened. Thermal processing of solid waste is the future of Landfills. Gasification is a process that uses a feedstock, often municipal or industrial waste, for a thermo chemical conversion of waste in high heat. This is done in a low oxygen environment and causes material breakdown at the molecular level. Once the molecular breakdown occurs, the gasification process recombines them to form a syngas, a gas similar to natural gas.

Development Plan & Status: Staff will conduct a feasibility study to better understand sizing and a practical design that can be integrated into the landfill.

Project Description: This project will extend 2.5 miles of wastewater line from Airport Beach Road to OSI.

Project Need: Captains Bay Road is the logical location for future commercial and residential expansion for the community of Unalaska. Captains Bay has the docking facilities and space for equipment storage to accommodate this and other industrial growth. Oil companies have expressed interest in Unalaska's deep-water port as a resupply port for their northern seas oil exploration and drilling operations. Construction of the road and utility improvements needs to begin now so Unalaska can meet the current and future needs of the community.

Development Plan & Status: Captains Bay Road currently has sewer line services from the intersection of Airport Beach Road to Westward Seafoods, a distance of one mile. This project will eventually install a new wastewater line from Westward Seafoods entirely to OSI.

Project Description:

FY27: The USCG lift station, located at the Unalaska Marine Center dock, and the landfill lift station, both require upgrades to improve pump station reliability and emergency alarm response. The upgrades would provide monitoring through the Wastewater Division's SCADA system.

FY28: This project would repair the interior wet-well piping and valving of Lift Station 7, located on Ballyhoo Road.

Project Need:

FY27: Both lift stations have no monitoring devices, installing communications and monitoring devices will enhance efficiency, allow real-time monitoring, improving emergency response and protect the community from potential hazards associated with wastewater collection system failures.

FY28: The interior piping and valving of Lift Station 7 shows signs of corrosion. Additionally, monitoring shows potential reverse flow caused by leaking lift station check valves. If not addressed, these issues present in the lift station will lead to unnecessary operational strain on the motors, increasing power consumption.

Development Plan & Status : This project will be funded through the Wastewater Proprietary Fund

Project Description: This project will replace approximately 600 linear feet of cast iron pipe segment under Biorka Drive with ductile iron. The replacement of this pipe was designed already by Regan Engineering, but the project was dropped when paving of Biorka Drive, which was the driving factor, was shelved.

Project Need: This section of water pipe was installed in the 1940's with cast iron pipe, the last section of cast iron pipe in Unalaska's water system. This line has been repaired in the past and has been is service longer than its life expectancy. Cast iron is a brittle material that is also susceptible to corrosion. Cast iron pipe often fails catastrophically when subjected to excessive pressure surge or ground movement. Pipe failure becomes more frequent with a cast iron pipe as it ages and loses wall thickness to corrosion. Emergency repairs after an unexpected catastrophic pipe failure are usually many times more expensive than proactive pipe replacement due to incidental damage, overtime, lack of in-stock repair materials, and general disruption of utility operations. Preventative replacement of pipes with high failure risks is a good practice in order to avoid the more costly emergency repair situation brought by a pipe failure.

Development Plan & Status: The budget for this project was estimated from the Water Master Plan and is an estimate at this point in the process. A more accurate budget will be determined during the design phase of the project. Funding for this project will come from the Water Proprietary Fund. Total cost for this project is estimated at \$396,500.

Project Description: This project aims to address the maintenance and dredging of the lcy Creek Reservoir, which has accumulated a significant amount of aggregate due to runoff over the recent years. If left unaddressed, the excess aggregate could compromise water quality, posing risks to public health and safety as well the utility's Filtration Avoidance operation. The project is split into two phases: an evaluation phase and a construction phase.

Project Need: The Icy Creek Reservoir is the City's main water source. It can store up to 8 MGD of raw water under optimal conditions, the water division can also utilize this water for distribution if it meets the filtration avoidance parameters. However, silt and aggregate accumulation can lead to water quality issues as well as reduce available storage, both which can be avoided with proper maintenance.

Development Plan & Status: This project will be funded through the Water Proprietary Fund.

Total	0	0	100,000	500,000	0	0	0	0	0	0	0	600,000

Project Description: This project will increase the height of the existing dam on the north side of Icy Lake and construct a new dam on the south end of Icy Lake.

- The existing sheet pile dam at the north end of the lake would be raised 5 feet and the dam length increased from 67 to 98 feet.
- \cdot A new sheet pile dam, approximately 6 feet tall by 193 feet long would be built at the south end of the lake.
- · Additional grading and riprap would be required for a larger spillway apron at the north dam
- · Riprap would be required for wave erosion protection of the south dam.· Grouting at the north and south dams would be required to seal fractured bedrock.

Project Need: Additional capacity for raw water storage at Icy Lake would be beneficial to help span processing seasons that occur during the more prolonged and frequent dry weather periods. Water system operators use the lake to "bank" surplus water between processing seasons when demand is low, with the intent that by the beginning of a processing season the utility is starting out with a full lake. During heavy processing the lake level gradually drops as demands exceed the combined capacity of Icy Creek and the wells and operators release lake water into Icy Creek. This operational strategy has been stressed in recent years when dry weather coincides with processing seasons and the lake is drawn nearly empty. If the lake is run empty and the water system is not able to meet demands, then the result would be water rationing and having to reduce fish processing throughput or diverting fish to processors in other communities.

Development Plan & Status: The budget for this project was estimated from the Water Master Plan and is a approximate guess at this point in the process. A more accurate budget will be determined during the design phase of the project.

Cost Assumptions \$150,000 Engineering, Design, Construction Admin \$150,000 Other Professional Services \$30,000 Construction Services \$2,020,000 Machinery & Equipment 2,200,000 Contingency (30%) \$660,000 Total Funding Request 2,860,000

Project Description: This recommended project would add water metering and a booster pump system at the Agnes Beach PRV station. The water metering will aid in leak detection, and utility management and understanding of where water is being used and when. The booster pump will provide water supply redundancy to Westward Seafoods, one of the largest customers in the water system, as well as redundancy to any further development along Captain's Bay Road.

Project Need: The Agnes Beach PRV station drops the pressure of water from Pressure Zone 2 (Captains Bay Road) to Pressure Zone 3 (Town) hydraulic grade. The station also allows for water to flow to the higher elevation areas of Haystack Hill with an option to allow external boosting in the event of a fire demand on Haystack Hill. The current PRV set up does not allow any method of measuring water flow through the station and severely limits the ability to reverse flow from the wells in the lower pressure Zone 3 to higher pressure Zone 2 (Westward Seafoods). A booster pump will allow for the pumping of water from the lower pressure zone to the higher pressure zone in the event of a shutdown of the Pyramid Water Treatment Plant due to, for example, high turbidity.

Development Plan & Status: The budget for this project was estimated from the Water Master Plan and is a WAG at this point in the process. A more accurate budget will be determined during the design phase of the project. Funding for the project will come from the Water proprietary Fund.

Installation of Meter and Booster Pump at Agnes Beach PRV Station

Water

Estimated Project & Purchase Timeline
Pre Design: FY28
Engineering/Design: FY29

Purchase/Construction: FY30

Project Description: This Project will add 2.6MG of clear water storage, increasing system capacity to support maintenance of existing tanks and enhance will efficiency and production during peak demand periods. Although initially proposed as a redundant CT tank, constructing the tank in a different location offers greater benefits. it will add storage capacity, provide a safety reserve for fire protection, and stabilize system pressures; especially in areas like Amaknak island which are fed though a bridge and subsea crossing with no storage available on island. The recent water line extension project on Captain's Bay Road mean the tank no longer to be built next to the existing one, making a new site more effective. This project will require the installation of approximately 200 ft. of 16" DI water main, 200 ft of 8" DI drain line, and control wiring.

Project Need: Additional storage provided by this tank will help to meet many of the issues mentioned in the 2004 Water Master Plan. Even in the Water Distribution System's current configuration, this new tank will provide an additional 960,000 gallons of the additional 4 MG of finished water storage recommended in the Master Plan. When planned future development is completed on Captain's Bay Road, over 2.2 MG of water storage will be available at the maximum Pyramid Water Treatment Plant capacity of 9 MGD. The additional storage will provide a buffer, allowing time to troubleshoot and repair problems in the event of an equipment failure or system malfunction. It will reduce the likelihood of water shortages and/or outages during the Pollock Processing seasons. Additional benefits include:

- Reduce service interruption, boil water notices, and risk of system contamination during maintenance.
- Expand and upgrade both the water treatment and distribution systems, using the full 9 MGD
 design capacity of the new water treatment plant will be possible.
- Improve the flow characteristics of the Pyramid Water Treatment Plant. Plant operators will be
 able to allow the tanks to absorb the high and low flows, maintaining a more stabilized treatment process and allowing the UV treatment process to operate more efficiently.

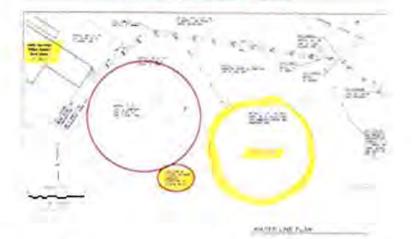

Development Plan & Status: A "Certificate to Construct" and a "Certificate to Operate" are required from ADEC, obtained through application by the designing engineer.

Project Description: This project consists of constructing one or more sediment traps in lcy Creek upstream of the reservoir. The sediment trap system should essentially be a series of deep, wide step pools with rock check dams along the creek that decrease the flow velocity and allow rocks and sediment to settle out. The sediment traps should also create a location for rocks and sediment to accumulate that would be easier for heavy equipment to access, easier to clean out, and potentially allow the reservoir and Pyramid WTP to remain in service while the upstream sediment traps are being cleaned. Although the sediment traps will not eliminate shutdown of the Pyramid WTP due to turbidity spikes during high flow events, it could reduce the occurrence and duration of shutdowns.

Project Need: Large amounts of rock and sediment move downstream along lcy Creek during high flow events. The rocks accumulate at the inlet end of the lcy Creek Reservoir as seen in Figure 30 and heavier sediment accumulates behind the dam. The rocks and sediment reduce the capacity of the reservoir. Draining of the reservoir and removal of rocks and sediment is a challenging exercise that is required periodically and also requires a lengthy shutdown of the Pyramid WTP. Turbidity issues due to suspended fine-grained sediments during high flow events also regularly cause shutdown of the Pyramid Water Treatment Plant.

Development Plan & Status: The budget for this project was estimated from the Water Master Plan. A more accurate budget will be determined during the design phase of the project. Funding for this Project will come from the Water Proprietary Fund.
